TALK OF TREATY

SENATE CONSIDERS THE HAY-PAUNCEFOTE PACT.

SENATOR MORGAN IS HEARD

ALABAMA STATESMAN URGES RATIFICATION.

ARMY BILL IN THE HOUSE

COMMITTEE WORKS ON THE REVENUE BILL.

Washington, Dec. 6.—Soon after the senate convened today a bill was passed amending the law providing for the construction of a bridge across the Mississippi river at Dubuque, Iowa, so that the draw should be 175 feet instead of 200 feet.

The senate at 12:40 went into executive session.

After the senate went into executive session today the Hay-Pauncefote treaty was immediately taken up. Mr. Morgan, of Alabama, took the floor, making an argument in favor of the ratification of the treaty, as necessary to secure the construction of the Nicaragua canal.

IN THE HOUSE.

Washington, Dec. 6.—When the house met today an arrangement was agreed to by which the consideration of the Grout oleomargerine bill, which was to have come up today under a special order made at the last session, was postponed until tomorrow, and the house proceeded with the consideration of the army reorganization bill.

The Hepburn amendment to provide that vacancies in the quartermaster's department could be filled from civil life or from volunteer officers commissioned since April 19, 1898, which was pending when the house adjourned yesterday, was voted down without division.

Mr. Hay, of Virginia, offered an amendment, which was adopted, authorizing the president to appoint fifty volunteer surgeons with the rank of major, and 150 assistant surgeons, with the rank of captain, for terms of two years, unless previously discharged.

Mr. Otty, of Virginia, offered an amendment to empower the surgeon general of the army to employ not to exceed thirty dental surgeons, three of whom should be chief dental surgeons.

Mr. Otty made a humorous speech in support of the amendment, appealing to every member to vote in the interest of 3,200,000 teeth. "Irrespective of party or the result of the late election," said he, "vote to rid the old soldier of the toothache."

The amendment was adopted.

Mr. Bingham, of Pennsylvania, offered an amendment to provide for a corps of veterinary surgeons, one chief veterinary, with the rank of colonel, one assistant chief, with the rank of major, four veterinarians, with the rank of first lieutenants, ten assistants, with the rank of second lieutenants, twenty assistants, with the rank of second lieutenant of cavalry. Mr. Bingham explained that the proposed amendment was identical with the provision in the senate bill. The establishment of a veterinary corps, he said, had the approval of Lieutenant General Miles, Generals Brooke, Merritt, Wilson and other high army officers.

As the army would be reorganized under this bill there would be upward of 35,000 animals to be cared for and the economy of such a corps was beyond cavil. The amendment was adopted, 80 to 2.

THE REVENUE BILL.

Washington, Dec. 6.—The ways and means committee met in special session at 10 o'clock this morning to consider the bill reducing the war revenue taxes to the extent of about $40,000,000, as previously framed by the republican members of the commitee and introduced by Chairman Payne yesterday. There was an unusually large attendance for an early meeting, there being but two absentees—Babcock, republican, and Robinson, democrat. Mr. Payne laid the bill before the committee and consideration of its details at once began. When the beer section was reached, fixing the rebate at 20 per cent. instead of 7½ per cent., which makes the rate $1.60 per barrel, Representative Richardson, the ranking minority member, moved a further reduction of all the increase made by the war revenue act. The effect of this motion, if carried, would have been to make the rate $1 per barrel. The motion was defeated by a party vote.

The consideration by sections proceeded, the bill being preserved in the main as framed by the republicans.

The ways and means committee voted to report the revenue reduction bill as adopted with an amendment making the bill to take effect on its passage instead of thirty days thereafter.

All substitutes and amendments by the minority were defeated, 6 to 9.

WOULD PROHIBIT CANTEEN.

Washington, Dec. 6.—Representative Littlefield, of Maine, has prepared an amendment to the army reorganization bill which he will present today, making an absolute prohibition of the sale of liquor in canteens or other military property.

An anti-canteen provision is already in the bill, but it has met some opposition on the ground that the prohibition applies only to the military service and does not prevent civilians from selling liquor on military property.

The Littlefield amendment is designed to be explicit and farreaching in absolute prohibition.

WILL FORM PARTNERSHIP.

Dr. W. E. Stemen, who is serving as a surgeon with the United States army in the Philippines, writes his father, Dr. C. B. Stemen, that he expects to reach Fort Wayne by January 1. Dr. Stemen will remain in the city and will form a partnership with his father for the practice of medicine and surgery.

GIVE ARMY BILL CLEAR WAY.

Washington, Dec. 6.—At a conference held in Speaker Henderson's office today prior to the opening of the session of the house, an understanding was reached that the oleomargerine bill would give way today in order to let the army reorganization bill proceed to completion, the oleomargerine bill following tomorrow, this understanding being subject to change or approval by the house. Chairman Hill, of the military committee, is hopeful of securing a final vote on the army bill before the close of the session tonight, and he expresses no doubt on the success of the measure. Several committee amendments will be made of rather minor importance, chiefly in the section applying to the corps of engineers.

One of the amendments specifies that the chief of engineers shall be selected as now provided by law.

A SPLENDID ART EXHIBIT

ANNUAL DISPLAY OF FORT WAYNE ART SCHOOL.

The Exhibit Represents Foremost Artists and is the Finest Ever Made Here.

This evening will be the most notable night of the season for the Fort Wayne School of Art's annual exhibit, now being held at the public library. The occasion will be given social aspect and the pleasure of inspecting the exhibit will be enhanced notably thereby. The usual custom of having the feature of the exhibit take place on the opening night was departed from, owing to delay in arrival of some of the pictures.

The exhibit is now complete and those who have visited it unite in the one opinion that it surpasses in excellence any that has ever been made in Fort Wayne. The range is wide and appeals to every variety of cultivated taste. There is a splendid collection of oils, while the water colors, numbering about forty-five, present some subjects and treatments that captivate admirers of that class of paintings.

In the oils Chas. Davis has a painting called "Twilight" that was awarded a $2,000 prize from the American Art association and won the $500 Palmer prize in Chicago. Henry W. Ranger, whose fame in landscape subjects is giving him a front rank of American artists, is also represented, as are also the Morans, Percy and Peter.

There is a splendid collection of work in black and white which Mr. Roullier will grow enthusiastic over many times a day.

Mr. Roullier, who brings the exhibit here, believes he has never offered Fort Wayne people an exhibit of such excellence as the one now here.

THE ARMY CAMPS

REPORT ON THE RAVAGES OF TYPHOID FEVER.

STERNBERG GIVES REPORT

CARELESSNESS WAS IN PART RESPONSIBLE.

LINE OFFICERS TO BLAME

MORE AUTHORITY ASKED FOR MEDICAL OFFICERS.

Washington, Dec. 6.—Surgeon General Sternberg made public today a report upon the origin and spread of typhoid fever in the United States military camps during the Spanish war of 1898, prepared at his instance by a board consisting of Major Walter Reed, surgeon, U. S. A.; Major Victor C. Vaughan, division surgeon, U. S. V., and Major Edward O. Shakespeare, brigade surgeon, U. S. V.

The surgeon general prefaces the report by calling attention to the vast amount of work the medical corps was called upon to perform during the war, in order to cope with the tremendous increase of the army in the field, and comments upon the widespread prevalence of typhoid in 1898, 20,000 cases of this disease appearing among the troops encamped within the limits of the United States from May until September of that year.

A general summary of the conclusions reached by the board indicates that during the Spanish war every regiment constituting the First, Second, Third, Fourth, Fifth and Seventh army corps developed typhoid fever, this being true of both the volunteer and regular commands.

More than 90 per cent of the volunteer regiments are shown to have developed typhoid within eight weeks after going into camp, and the fever developed also in certain of the regular regiments within three to five weeks after the tents went up.

Typhoid became epidemic in all camps, large and small, north and south, and was found to be so widely distributed in this country that one or more cases are likely to appear in any regiment within eight weeks after assembly, whether on the march or stationary. It is also stated that, with typhoid fever as widely disseminated as it is in this country, the chances are that if a regiment of 1,300 men should be assembled in any section and kept in a camp having the most perfect sanitary conditions, one or more cases of the fever would develop. Nevertheless it was that many commands during the war were healthily located, that the space allotted to regiments was in some instances inadequate and that many regiments were allowed to remain on one site too long.

There were regiments at Chickamauga which did not move a tent from the time of their arrival in May to their departure late in August.

Requests for changes in location made by medical officers, on account of the unfit condition of the camps in question, were not always granted. In some instances camps were set up in the face of earnest protests from medical officers, who protested against the sanitary unfitness of the sites selected.

The camps became very filthy in general, it is stated, and line officers are thus held responsible to some extent for the unsanitary conditions that developed.

In this connection the board suggests that greater authority be given medical officers in questions relating to the hygiene of camps.

The board condemns in general the methods of disposing of the excretions of the human body and fecal matter, holding that a lack of proper facilities in this respect was in a large measure responsible for the prevalence of the fever in the camps.

Where water carriage cannot be secured in permanent camps, it is suggested that all fecal matter be disinfected and then carted away from the camp, and the board had made a special recommendation that galvanized iron troughs containing milk of lime be utilized for this purpose.

Infected water was found to be an unimportant factor in the spread of typhoid fever in the national encampments of 1898. At Chickamauga, Jacksonville, Camps Alger and Meade contaminated water is said to have played but a small part in spreading the fever. To guard against the contamination of the water supply, however, facilities for the sterilization of water for troops in the field are recommended.

Flies, which swarmed over infected fecal matter in the camp pits, are believed to have been transmitters of typhoid baccilus.

It has been conclusively settled that a company badly infected with typhoid cannot rid itself of the infection by simply changing its location, as it carries with it the specific agents of the disease in the bodies of its men and in their clothing, bedding and tentage. Indeed, it has been found that an extended ocean voyage does not avail, but that a complete disinfection of men and effects is absolutely necessary.

Except where urgent emergency makes it necessary, the board urges that one command should not be located upon the site recently occupied and vacated by another. It is urged that the soldiers' beds should be rised from the ground, for the men are reported to have slept in dust piles possibly infected with typhoid germs, and also that the soldiers be made to remove their outer clothing at night, wherever possible.

Malaria was not a prevalest disease among the camps during the war, although many short attacks of typhoid were generally diagnosed as some form of malarial fever. Altogether about one-fifth of the soldiers in the national encampments during the Spanish war developed typhoid, about half of the cases being correctly diagnosed by the army surgeons. The death rate was 7.61 per cent., and the average period of incubation was found to be about ten and one-half days.

LESSONS WERE FROM LIFE

SETON-THOMPSON ON THE ANIMAL WORLD.

Eminent Friend of Earth's Creatures Delights Two Great Audiences in Fort Wayne.

Ernest Seton-Thompson, student of animal nature and eminent for his research along this unique line, addressed two audiences in Fort Wayne yesterday, and firmly established his standing as one of the most delightful speakers ever heard in the city. He came with the second offering of the Women's Club League course, and in the afternoon a matinee for children packed the theater to the doors. The children knew Seton-Thompson, for many of his animal stories in print have given them pleasure, but the author himself was a new delight to them. He talked of the "Personality of Wild Animals," and through the entire time told them in a language they could comprehend of the nature and chracteristics of creatures of the animal world, bringing out a wealth of information which his delineations and mimicry impressed upon the minds of the children with an indelible tracery.

An older and more sedate audience heard the evening lecture on "Wild Animals I Have Known," profusely illustrated by pictures and sketches made by the lecturer through years of his research into the life and nature of the animal kingdom. He began with the better known birds, and following them took up the dog, rabbit, bear, wolf, moose, caribou and other animals, combining in his two hours' talk the results of a life of intelligent research. The lecture was so distinctly different from anything previously given here that it will be remembered vividly and with unalloyed pleasure by the large audience which heard it.

THE SEWER CAVED IN ON HIM

BENJAMIN RICH HAS NARROW ESCAPE.

Side Walls Tumbled Down Without Warning—Fortunately He Was Not Dangerously Hurt.

Benjamin Rich, employed on a sewer being constructed in the alley between Fourth and Fifth streets, in Bloomingdale, was injured this morning by the sewer caving in upon him. The patrol wagon was called and he was removed to his home at 25 Colerick street. He is not dangerously hurt, but was considerably bruised by the tumbling earth. He was able to walk from the wagon to the house after several copious draughts of liquor had been administered.

Charles F. Moore, of Wabash, and E. E. Pitman, of Logansport, are at the Randall.

LABOR MEN MEET.

ANNUAL CONVENTION OF THE AMERICAN FEDERATION.

ASSEMBLES IN LOUISVILLE

PRESIDENT GOMPERS MAKES HIS ADDRESS.

REVIEWS YEAR'S PROGRESS

THE CAUSE OF UNIONISM HAS PROSPERED.

Louisville, Ky., Dec. 6.—The twentieth annual convention of the American Federation of Labor met today in Music hall. The American flag was much in evidence in the way of decorative effect.

When the president's gavel fell 217 delegates were in their seats. Representatives were present from British Trades Union Congress, and the Canadian Trades and Labor Congress, three women delegates and two colored.

President Gompers introduced William M. Higgins, editor of the Irish American, of Louisville, who delivered the address of welcome. President Gompers replied. Thomas Tracey, of Boston, chairman of the committee on credentials, then presented the report of that committee. The reading consumed half an hour.

SAMUEL GOMPERS.
President of the American Federation of Labor.

The committee, it stated, had examined the credentials of 205 delegates, representing sixty-one national and international unions, ten state branches, forty-two central labor unions, fifty-nine local trades unions and three foreign federations.

The report was unanimously adopted and the delegates were seated.

PRESIDENT GOMPERS SPEAKS.

President Gompers then began his annual address.

President Gompers, in his annual report, said:

Our economic and social life presents to us new and complex problems. The century now opening before us requires the keenest appreciation on the part of all, that upon ourselves and upon our unity in sentiment, conviction and action lies the safety of the future manhood, womanhood and childhood of our country.

There have been no rights accorded unless they have been conquered through unity, the wisdom and the willingness of those who have acquired them, to bear burdens and make sacrifices.

What is true of the past is true of the present, and will be equally true in the future. To organize the yet unorganized workers; to build up national and international unions; to make our organizations daily more effective to defend the toilers; to protect and promote their interests in every way; to assure beyond all preadventure the vantage ground already gained, to progress continually in abolishing that which the workers, their wives, and their children have too long borne, and the achievement of that justice to which they are entitled—the success of these, as typified by our great cause, now and for all time to come rests entirely upon the working class itself.

The past year has witnessed a most remarkable growth in organization among the workers who have realized that there is no protection for their interests or hope for justice and freedom in the future, unless it results from the unity of the wage working masses.

While the growth is very gratifying, there is another feature connected with it, which is even a greater source of justification. The workers have organized in the unions of their trades and callings; new unions have been formed, and several national unions created from heretofore scattered and isolated locals, and thus the stability of the labor movement has been more nearly insured.

We have issued direct from the American Federation of Labor during the past year 849 charters; to national and international unions, 4; state federations of labor, 5; city central labor unions, 96; local trade unions (having no national), 484; federal labor unions, 250.

We had at the end of the fiscal year October 31, 1900, affiliated with the American Federation of Labor, national and international unions, 82; state federations, 16; city central labor unions, 206; local trades union and federal labor, 1,051.

There were issued during the year from national and international unions and the American Federation of Labor (direct) charters to the following: Newly formed unions, 3,375; charters surrendered or union disbanded, 418; leaving a net increase of local unions for the year of 3,027, and a gain in membership of 294,329.

Our movement seeks, and has to a considerable extent secured, a diminution in the number of strikes, particularly among the best organized. In fact, the number and extent of strikes can be accurately gauged by the extent, power and financial resources of an organization in any trade or calling. The barometer of strikes rises with lack of, or weakness in organizations and diminishes with the extent and power of the trade union movement.

Through more compact and better equipped trade unions have come joint agreements and conciliations between the workmen and associated employers; and only when conciliation has failed has it been necessary to resort to arbitration, and then the only successful arbitration was arbitration voluntarily entered into.

It is strange how much men desire to compel other men to do by by law. What we aim to achieve is freedom through organization. Arbitration is only possible when voluntary. It never can be successfully carried out unless the parties to a dispute or controversy are equally or nearly equal in power to protect and defend themselves, or to inflict injury upon the other.

The more thoroughly the workers are organized in their local and national unions and federated by common bond, policy and polity, the better shall we be able to avert strikes and lockouts, secure conciliations, and, if necessary, arbitration; but it must be voluntary arbitration or should be no arbitration at all.

Realizing the necessity for the unity of the wage earners of our country, the American Federation of Labor has upon all occasions declared that trades unions should open their portals to all wage workers, irrespective of creed, color, nationality, sex or politics. Nothing has transpired in recent years which has called for a change of our declared policy upon those questions—on the contrary, every evidence tends to confirm us in this conviction, for, if it were not a matter of principle, self preservation would prompt the workers to organize intelligently and to make common cause.

In making the declaration we have, we do not necessarily proclaim that the social barriers existing between the whites and blacks could or should be felled with one stroke of the pen; but when white and black workers are compelled to work side by side until the same adverse circumstances and under equall unfair conditions, it seems an anomoly that we should refuse to accord the right of organization to workers because of a difference in their color.

Unless we shall give the negro workers the opportunity to organize and thus place them where they can protect and defend themselves against the rapacity and cupidity of their employers; unless we continue the policy of endeavoring to make friends of them, there can be no question that they will not only be forced down in the economic scale and be used against any effort made by us for our economic and social advancement, but race prejudice would be made more bitter and to the injury of all.

The alien contract labor law falls far short of accomplishing what it was originally intended to do, for the reason that violators of the law are easily and systematically coached how to pass the inspection.

The enactment of wise and beneficent legislation in the interest of the toiling masses of our country must still be demanded until all the wrongs which the toiler suffer are abated. We insist upon the enforcement of the rights to which we are entitled. Unless we, as the

(Continued on Second Page.)

HE HONORS THEM

LORD ROBERTS' TRIBUTE TO THE BOERS.

THEY FOUGHT FOR LIBERTY

OF THE KIND EVERY ENGLISHMAN VALUES.

PRIVILEGES ARE PROMISED

THE FIELD MARSHAL LEAVES DURBAN FOR CAPE TOWN.

Durban, Dec. 6.—Lord Roberts, on board the Canada, has started for Cape Town. He was given an enthusiastic send off. All the ships in the harbor were decorated with flags. Miss Roberts, who accompanied her father, has returned to Johannesburg, where she will join her mother and sister, going from that place to Cape Town.

Prior to his departure Lord Roberts made a speech, during the course of which he adjured his hearers to extend the right hand of fellowship to those who had been their enemies.

"When blessed peace is restored," said the field marshal, "you will tell them that we are all one in one country, that we have one interest and that we honor them. They have been fighting for a wrong cause, having been induced to do so by their misguided rulers.

"Nevertheless, we honor them for fighting for the liberty we ourselves so thoroughly believe in. And now, in the spirit of liberty, truth, justice and freedom, we are prepared to extend these privileges, which every Englishman values, to those who have been fighting agianst us."

AFRIKANDER CONGRESS.

Worcester, Cape Colony, Wednesday, Dec. 5.—The attendance at the Afrikander congress tomorrow is expected to be fully 4,000. The hotels are already filled to their capacity. The Afrikanders ridicule the idea of trouble.

They say they can surely air their grievances without resorting to violence.

They are greatly incensed at the posting of guns in positions commanding the meeting place. The slopes surrounding the town are crowned with artillery and troops with cannon have been posted on Gallows hill and Prospect hill.

RAW FLAX SCARCE.

Washington, Dec. 6.—On account of the scarcity of raw flax in Germany prices have advanced 10 or 12 per cent. and a number of the mills have closed their doors. Some of the operators are only working half time or full time with a few of their spinners, though all the mills could be working constantly if the raw material could be furnished in sufficient quantities and at a reasonable price. Consul Herzog, at Zittaw, in a report to the state department, says that at the beginning of the new year Russian flax will be inadequate and if the growers of the United States could possibly put the American flax on the market within a short time, there would be a steady demand for their products. Conference will shortly be held at Brestlau, Germany, and at Trautenau, Bohemia, between German and Australian flax spinners and Belgian and Russian dealers in raw flax and the consul says that this will be a splendid opportunity to offer samples of American flax with a view to introduction of that commodity into Germany.

WILL WELCOME KRUGER.

The Hague, Dec. 6.—At the opening of the second chamber today the president, J. G. Gleechman, said:

"President Kruger arrives here today. He will take up his residence here. I take the occasion to propose that the chamber authorize me to welcome in its name the president to our country and offer him an expression of our cordial sympathy."

The proposal was adopted amid cheers and bravos.

LESTER REIFF EXONERATED.

London, Dec. 6.—The Racing Calendar today announces that Lester Reiff, the American jockey, has been exonerated of the charge of pulling Richard Croker's horse The Scotchman II. at Doncaster. Tod Sloan, it is aided, has been informed that he need not apply for a license for next season.

NEWSPAPERARCHIVE.com

PALE WOMEN

A Bloodless Face Indicates Trouble.

Watery Blood a Menace to Health.

WE KNOW HOW PALE PEOPLE CAN GET RICH RED BLOOD.

COME AND LET US TELL YOU ABOUT VINOL.

When blood is watery and thin, or, as doctors would say, lacks red blood corpuscles, it is a sign that much is radically wrong.

We would advise everyone who has such symptoms to start at once to take a proper remedy to overcome this trouble.

That remedy is Vinol, the greatest and most modern tonic and rebuilder.

Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles extracted from cods' livers, the same elements that have made cod-liver oil famous for wasting diseases.

These medicinal elements are dissolved in a delicious table wine so that Vinol is most palatable.

None of the vile-smelling obnoxious grease that characterizes cod-liver oil and frequently makes it an impossible remedy for those who should take it, is found in Vinol.

We could relate many instances where Vinol has done good and restored the roses of health to the pale cheeks of the sufferer.

The following is a fair sample of the way people write in regard to Vinol:

"For several months I suffered lassitude and tired all the time. Also a sinking feeling in my stomach, which nothing would relieve, and I was pale and weak. As an experiment I tried Vinol and if I wrote pages I could not tell all it has done for me."—MRS. A. K. LA PRUSCH, Amesbury, Mass.

Because we know Vinol so well, and because we know so surely what it will do, and how it will accomplish the good it does in a scientific way, we unreservedly endorse and recommend it, and in every instance guarantee to refund to any one what they pay us for Vinol if they do not find it entirely satisfactory.

W. C. BAADE,

116 CALHOUN STREET.

HE RESTS IN PEACE

WILLIAM EDSALL HAS GONE FROM EARTH.

DIED WEDNESDAY EVENING

MEMBER OF AN OLD AND PROMINENT FAMILY.

WAS A COMRADE OF LAWTON

OTHER DEATHS AND FUNERALS IN FORT WAYNE.

William Edsall, a life-long citizen of Fort Wayne and a member of one of its most prominent pioneer families, died at 4 o'clock Wednesday afternoon at his home, corner of Jefferson and Rockhill streets. Mr. Edsall was fifty-six years of age, and his death was due to consumption. For more than thirty years he has been in frail health in consequence of a severe wound received while a soldier in the civil war, and his enfeebled vitality quickly yielded to the ravages of the dread disease which finally terminated in his death. His last illness dates from nine months ago, and for the past three weeks he had been confined continuously to his bed.

Mr. Edsall was the son of Simon Edsall, who, with his parents, brothers and sisters, came to Indiana soon after the treaty of Greenville, in 1814. After the death of the father the family came to Fort Wayne, and the marriage of Simon Edsall and Mary Alderman occurred in this city in the early forties. To them William Edsall, the subject of this sketch, was born in Fort Wayne in October, 1844, and here he grew to manhood among the pioneer surroundings. His education was acquired in the old M. E. college, where he was a classmate and an intimate friend of the late Major General H. W. Lawton. This friendship continued close and unbroken until the death of the great soldier at San Mateo in December last.

At the outbreak of the civil war Mr. Edsall and Lawton enlisted together in the old Thirtieth Indiana regiment, and they were in service together for several years. At the battle of Murfreesboro Mr. Edsall was shot through the leg, and for three days and three nights lay suffering on the field. When near the point of death he was found by a comrade, and a drink of water from a canteen revived him. Mr. Edsall always believed this drink of water was given him by Lawton, but he was too nearly exhausted to be certain of it, and a laugh was Lawton's only reply when it was subsequently mentioned. Mr. Edsall was removed to a hospital and placed on a cot beside the one on which lay Louis Schirmeyer, now trustee of Wayne township, who was also severely wounded. Both recovered and were mustered out of the service.

Returning to Fort Wayne, Mr. Edsall was united in marriage February 18, 1869, to Miss Mary McCormick, daughter of Charles McCormick, who was also a pioneer citizen of the city. For many years Mr. Edsall was engaged in business in this city as a member of the firm of Harper, Edsall & Monahan, hatters, with stores on Calhoun and Columbia streets. Retiring from this firm he was later engaged with his cousin, the late Frank Alderman, in the manufacture of washing machines.

Mr. Edsall was a quiet, unostentatious citizen, and most devoted to his home circle. Under the guidance of his mother, who was one of the thirty charter members of the Berry Street M. E. church, Mr. Edsall united with the church at an early age, and his life has been a consistent and devoted one. At the time of his death he was a member of the Wayne Street M. E. church. He held membership in Sol D. Bayless lodge, F. and A. M., Encampment No. 51, Union Veteran Legion, and in Sion S. Bass post, G. A. R., and was a pronounced favorite among the old veterans. Politically Mr. Edsall was a republican, and though in broken health he went to the polls four weeks ago and cast his last vote. He was able to leave his home but once afterward.

Surviving him are the widow and four children—three sons, Charles, Edward and Joseph, and a daughter, Grace. Another daughter, Della, died in infancy. The only other immediate relative is a brother, Peter Edsall, now living in Coffeyville, Kas. Until recent years, the Edsall family and connections was one of the largest in Fort Wayne, but now the only surviving cousins of the deceased are Mr. Dayton Alderman, Miss Frank Sinclair, Mrs. George D. Crane, Mrs. DeGroff Nelson, Mrs. Henry Colerick, Mrs. Jenness, of this city; Mrs. Dr. Swift, of Mayaville, and Mrs. Drury, of Kansas City. The late Frank Alderman and the late Clarence Edsall were also cousins.

The funeral services will be held on Saturday and more definite announcement will be made later.

GIBFORD.

Mrs. Catherine Gibford died at 11 o'clock Wednesday night at the home of her daughter, Mrs. W. D. Stewart, 166 Maumee avenue. Mrs. Gibford was seventy-seven years of age and death was due to cancer.

She was born in Westmoreland county, Pa., in 1823, and surviving are three children—Warren R. Gibford, of Darby, Minn.; Mrs. Angela Whitmer, of Canton, Ohio, and Mrs. Emma Stewart, of this city. She also leaves a sister and two brothers—Mrs. Anna Siffert, of Canton, Ohio; Henry Bender, of this city, and Harry Bender, of Montana.

FUNERAL AN ilodar iartf&& iloda

Funeral announcement will be made later.

FUNERAL ANNOUNCEMENTS.

Gore.—Funeral services of Mrs. E. L. Gore will be held Friday afternoon at 1:30 from Scheumann's undertaking parlors. In accordance with the wishes of the deceased the remains will be placed for the present in the receiving vault at Lindenwood cemetery.

LISTS OF THE NEW OFFICERS

ELECTIONS IN THE LODGES AND SOCIETIES.

Members Honored by the Royal Arch Masons—Improved Order of Red Men—Other Societies.

Wednesday evening Fort Wayne Chapter No. 19, Royal Arch Masons, held its annual meeting and the election of officers resulted as follows: High priest, F. L. Hollister; king, W. S. Sponhauer; scribe, O. A. Phelps; captain of the host, G. E. Chilson; treasurer, Charles E. Read; secretary, W. J. Probasco; trustees, H. W. Mordhurst, R. A. Ligget and William Geake.

THE RED MEN.

Below is the list of new officers elected Wednesday evening by Mechecannochqua Tribe No. 106, Improved Order of Red Men: Sachem, M. J. Archbold; senior sagamore, J. L. Bireley; junior sagamore, George W. Dailey; prophet, George W. Keller; chief of records, William A. Aiken; collector of wampum, William W. Bireley; keeper of wampum, S. D. Engle; trustee, D. L. Bowers.

ST. CECELIA SOCIETY.

St. Cecelia's society of St. Peter's Catholic church, at its annual election chose the fololwing officers: President, Rev. F. Koerdt; vice president, Charles Schellhammer; secretary, Miss Mary Koerdt; treasurer, Miss Lizzie Wiegand.

A WAY THEY HAVE.

What This Fort Wayne Citizen Says Only Corroborates the Story of Thousands.

The particulars related by this representative citizen of Fort Wayne are similar to hundreds of others in this city. When there are scores of people all anxious to tell about the benefits received from the use of Doan's Kidney Pills the greatest skeptic in Fort Wayne must be convinced. Read this:

Mrs. Mary Brenner, of 78 Wilt street, says: "I saw in our German paper one day how much good Doan's Kidney Pills were doing and the first time I was down town I went to Meyer Bros. & Co.'s drug store and got a box. I am very glad I did, for they did me a great deal of good. I had kidney complaint for a long time and the worst symptom was a bad backache, so severe at times that I could hardly attend to my household duties, but thanks to Doan's Kidney Pills I obtained relief."

Doan's Kidney Pills for sale by all druggists price 50 cents per box.

Doan's Ointment is a specific for all itching skin diseases, Piles, Eczema, Chilblains, Chafing, any irritation and all itchiness of the skin. Gives instant relief. We mail a free sample box on application. Address Foster-Milburn Co., Buffalo, N. Y.

CENSUS TAKER.

Justice—What were you doing in Colonel Pullet's chicken coop?

Uncle Mose—Fo' de Lawd, judge, I was jes' takin' de census.—Harlem Life.

Ask your grocer for Sleepy Eye Flour. 112 Barr St. Troxell & Co.

Look in Patterson's window and see the swell line of outing flannel night robes and pyjamas.

CAUTIOUS.

Mistress—Mary, didn't I hear you kiss that young man last night when he went away?"

Maid—I hope not, mum.—Detroit Free Press.

LAY CORNER STONE SUNDAY

OF NEW THIRD PRESBYTERIAN CHURCH.

Different Evangelical Churches of the City Will Participate—The Program.

The corner stone of the new Third Presbyterian church at the corner of Harrison and Taber streets will be laid next Sunday afternoon with appropriate services. The auditorium floor of the new structure has been completed and the exercises will be held there, providing that the weather is fine. In ase of inclement weather the services, excepting the actual laying of the stone, will be held in Bethel Evangelical church at the corner of DeWald and Clinton streets.

The box containing the articles to be placed in the stone will be placed by Dr. J. D. Chambers. This box has been made with the view of preserving the contents for all time, and instead of being placed in the stone from the top, it will be placed on the foundation and the stone will be fitted over it.

Following is the program, which commences at 2:30:

Invocation...Rev. W. D. Parr, D. D. Wayne Street M. E. Chuch.

Long metre doxology.

Brief historical record.....

.....Elder James English

Scripture reading..Rev. J. W. Bailey Plymouth Congregational Church.

Anthem.

Address...Rev. D. W. Moffat, D. D. First Presbyterian Church.

Hymn—"An Earthly Temple Here We Raise."

Offering.

Statement of contents of stone....

.....F. P. Wilt

Laying of corner stone.....

Dr. J. D. Chambers, Deacon William Crighton, Trustee W. A. Diffenderfer.

Prayer of dedications and thanksgiving..Rev. J. A. P. McGaw, D.D.

Hymn—"Holy, Holy, Holy."

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

CLEVER PA.

Aunt—But, Fritz, why do you always bring Elsa when I play? She screams frightfully until I have to stop.

Fritz—Yes, that's what pa says, and he gives me five cents to do it.—Fligende Blaetter.

Now line of mackintoshes just received at Patterson's.

LABOR MEN MEET.

(Continued from First Page.)

organized wage earners of the country, protest against the wrong and demand the establishment of the right, we shall lose the confidence and respect of the organized as well as the unorganized toilers of America, who will hold that we have failed to avail ourselves of all the opportunities which are presented in order to seek redress through the proper channels. It cannot be denied that much of faster and greater progress can be made and will be made provided we are firm in our determination to achieve it, unceasing in our efforts and undivided in our course.

LAKES ARE FAST DRYING UP.

Lieutenant O. Olufsen, of the Danish army, has recently completed his second series of explorations in central Asia and particularly on the lofty Pamir plateau, where he first began his studies in 1896. He says that in the past few years the quantity of water in Turkestan and Bokhara has notably diminished. A number of oases that were cultivated with much success several years ago have now been abandoned because the streams that rendered their irrigation possible have dried up. This phenomenon is particularly prominent along the little rivers that feed the Syraria and the Amu Daria, whose sources are among the highlands of the Pamirs.

The quantity of snow on the Pamirs is decreasing on account of the rapid erosion of the soft schistose rocks which form the ridges, the filling up of the valleys and the increased average velocity of the wind. With high winds blowing over a surface that is now more level than formerly, the snows which fed the lakes, the sources of these rivers that helped to give fertility to Turkestan and Bokhara, blow away in large part, and the result is that the lakes are much smaller than formerly.

He mentions in particular the Yechil Kul, or lake, which was formerly at least 200 kilometers—about 120 miles—in circumference. The lake is now only about forty miles in circumference. Parts of it, however, still exist as little lakes cut off from the main lake in the lower parts of the former bed occupied by Kechil Kul when it was one unbroken sheet of water. This lake, however, is not one of the feeders of the river, for it is a salt lake.

A somewhat similar story comes from south Africa with regard to the famous Lake Ngami, discovered by Livingstone more than fifty years ago. The dessication of Lake Ngami has made extremely rapid progress in the past ten or twelve years. When Livingstone reached the lake in 1849 he found a sheet of water with an area of about 800 square kilometers. The lake has now entirely disappeared. Its old bed is a low-lying plain covered with jungle, with small areas of boggy land here and there, but not a vestige of water surface to be seen.

The Okawango river, once the outlet of the lake, is entirely dry for some twenty miles from Ngami, where it begins to gather water again. Formerly many natives lived around the edges of the lake and raised a great deal of grain there. But culture now is impossible, as there is no water to irrigate the crops, and the result is that the numerous villages around the lake have been abandoned. Only a comparatively few herders of cattle still live where in the flourishing days of Lake Ngami there was a large population.—New York Sun.

MILITARY INCIDENT IN PEKIN.

A curious incident noticed by few happened recently in Pekin. The Russian band had been playing full lungs the "Marseillaise," the republican march of France, but a forbidden air in the monarchic neighboring country of Italy. As the French were meagerly represented the Italians came immediately behind them just as the "Marseillaise" that was in full swing was being played. The Russian general discovered at once the faux pas, and tried in vain to signal the bandmaster to stop. They were going at it their hardest when the general's aide-de-camp was dispatched across the line to the musicians. Just in time. In a hurry-scurry fashion the republican march ceased abruptly, and the "Inno Reale" of Italy was struck, much to the reassurance and relief of the Italians, who seemed perplexed to march under an air foreign and ungrateful to their ears.—Harper's Weekly.

TOO LATE.

Wife (after a quarrel)—I wish I'd never met you!

Husband—Yes. Now when it's too late you are sorry for me!—Fliegende Blaetter.

WHY MRS. PINKHAM

Is Able to Help Sick Women When Doctors Fail.

How gladly would men fly to woman's aid did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances.

Those things are known only to women, and the aid a man would give is not at his command.

To treat a case properly it is necessary to know all about it, and full information, many times, cannot be given by a woman to her family physician. She cannot bring herself to tell everything, and the physician is at a constant disadvantage. This is why, for the past twenty-five years, thousands of women have been confiding their troubles to Mrs. Pinkham, and whose advice has brought happiness and health to countless women in the United States.

MRS. G. H. CHAPPELL.

Mrs. Chappell, of Grant Park, Ill., whose portrait we publish, advises all suffering women to seek Mrs. Pinkham's advice and use Lydia E. Pinkham's Vegetable Compound, as they cured her of inflammation of the ovaries and womb; she, therefore, speaks from knowledge, and her experience ought to give others confidence. Mrs. Pinkham's address is Lynn, Mass., and her advice is absolutely free.

THE RISKS WOMEN TAKE FOR THOSE THEY LOVE

We thrill at the story of "Curfew shall not ring to-night." Yet it is melodramatic and commonplace beside the peril every woman runs who faces motherhood. Women are strangely self-forgetful. The exaltation of the fact of motherhood blinds them often to its peril. Yet the husband who can bear no tithe of the mother's pain or peril owes it to himself to see that his wife is in that condition of sound health which minimizes the risk both to mother and child. Many husbands have expressed their gratitude for Dr. Pierce's Favorite Prescription, because it makes the pain of motherhood practically nothing and reduces the risk to its lowest possible point.

"Five years my wife was in an almost helpless condition, suffering from female weakness," writes J. S. Everritt, Esq., of Hagerman, Washington Co., Fla. "Last September I decided to have her try Dr. Pierce's Favorite Prescription. She took several bottles of the medicine and gave birth to a ten pound son on January 21st, 1899. She is now sound and well and doing her housework."

Dr. Pierce's Medical Adviser 1008 pages sent free on receipt of stamps to pay cost of mailing *only*. Send 21 one-cent stamps for paper-bound volume or 31 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y.

A frequent difficulty encountered by postal authorities in Australia is the cheap and expeditious delivery of mails to outlying localities. Many of these places are hundreds of miles from the nearest railway line and the route is apt to be through drouth-stricken country, where the dry roads are at times impassable, even by camels. This is conspicuously the case in tropical Queensland.

Company D. Third infantry, will give a military ball and reception at the Mulqueen Dancing academy next Wednesday evening, Dec. 12. It [illegible] social [illegible] season.

LOCAL NEWS.

S. B. Fielding is transacting business in Chicago.

Earl Kelly, a messenger in the employ of the District messenger service, is laid up with a very painfully sore leg, the result of being bitten by a vicious dog owned by Rev. Seabrease several days ago.

Mrs. Edward Call entertained a few friends last evening in honor of Miss Lillian France, of Chicago. The guests enjoyed a peanut hunt, and first prize was won by Ruth Ransberg, while the booby award went to Arthur Braun.

A district meeting of the Pathfinders will be held in Huntington next Wednesday and a big attendance of delegates from the various branches of that order in cities in this district will be present. A large delegation will be present from this city.

Bluffton News: "W. H. Eichhorn was in Fort Wayne today arranging preliminaries for the trial of the three Bluffton boys in the United States district court there next week. He is one of the attorneys for the defendants. Candidate [illegible] will also defend them."

It Won't Do

A "may-cure" cough medicine won't do. If it will "perhaps do its work," it's worse than worthless. If it's positive and certain, it's worth ten times its price. Ayer's Cherry Pectoral is the cough medicine with a record of sixty years back of it. It's the kind that cures colds and coughs.

Three sizes: 25c., enough for an ordinary cold; 50c., just right for asthma, bronchitis, hoarseness, whooping-cough, hard colds; $1.00, most economical for chronic cases.

MORTON-VAN ALLEN.

The marriage of Miss Grace Van Allen, daughter of Mr. and Mrs. J. H. Sthair, and Harry Morton took place last evening at the home of the bride's parents, Rev. H. J. Norris, of the Berry street M. E. church, officiating. Miss Etta Keller played the wedding march as the party entered the parlor, preceded by Miss Adele Druhot, carrying a basket of flowers. Miss Nellie Bishop and John Sthair were the attendants and Isora Logan was ring bearer. Following the ceremony a delicious wedding supper was served. Mr. and Mrs. Morton are at home at the residence of the bride's parents, 40 Force street.

CIRCULARS RECEIVED HERE.

The telegraph brings the news from New York that the firm of C. W. Morgan & Co., stock brokers, commission merchants and what not, have been discovered to be a huge swindling concern. Quite a number of Fort Wayne people have been receiving their circulars, setting forth the sure things they had up their sleeves and inviting investigation and investment, particularly investment. As recently as yesterday these circulars were received, recommending purchase of B. R. T., Steel and Iron, Atchison and other stocks. The Sentinel has not learned of any Fort Wayne suckers, and if there are any the victims will probably keep the fact closely hidden under their hats.

REAL ESTATE TRANSFERS.

(Compiled by John C. Heller & Co., abstracters, 32 East Berry street.)

—City.—

George J. and Elizabeth Strasser to Gottlieb Hitzeman, part 175 and 176 Rockhill's addition, for $700.

Paul and Mary Kartstine to Thos. and Minnie O'Neal, north half lot 24 McLaughlin's addition, for $900.

—Country.—

Wm. May to A. H. and Ora Knight, north 22.28 feet lot 111 H. Sink's addition to Zanesville, for $50.

STRUCK CENTER

When She Found Coffee Was Slowly Killing Her.

Even a very temperate mode of living in regard to food beverages will not avail if the use of coffee is continued.

A Virginia lady, Mrs. R. F. Miller, of Bedford City, says that she was very temperate in every way. "I did not suspect that coffee was the poison that was undermining my whole nervous system, causing a condition of vertigo and headaches, until the attacks became so frequent and violent that I was compelled to give up all kinds of work and forced to lie down most of the time.

"My attention was drawn to Postum Food Coffee by the experience of some others in regard to common coffee, and the thought occurred to me that perhaps coffee was the cause of my trouble, so I began to use Postum, being careful to have it made according to the directions on the package.

"I did not have to cultivate a taste for it, for I found on the start that it was a most delicious beverage.

"Day after day I continued to improve, but did not dream that it would be such a help, and never since the day I left off coffee and commenced the use of Postum Food Coffee (about nine months ago) have I had any return of the trouble. I have used no medicine or tonic of any kind during this time, and my present condition of magnificent health is due entirely to the use of Postum Food Coffee.

"I have heard several persons say they did not like Postum, but in each case I discovered upon inquiry that it was because they tried to make it like common coffee—that is, boil it four or five minutes. This will not do, for one cannot get the delicious flavor and the food value in so short boiling. The directions are plain enough, and it only requires a little patience to bring out the beautiful flavor.

"The doctors find Postum one of their most valuable aids in the treatment of cases like mine."

SPORTING NEWS.

A Fable: Charles Strobel, of Toledo, is still Talking. A great Many people who Have heard Charles Talk say that he Talks through his Hat. Charles merely curls His lips with lofty Disdain and remarks that Such people Are Weak minded. He dreamed one Night that He was the Whole Thing and He immediately commenced to Swell Up until He looked like that German count's Balloon set on End. Charles then sat Himself down and Organized Himself into a new League and dictated a Lot of interviews to Himself. When He got through he said He was a Good Thing and appointed Himself the Main Squeeze and wrote to Ban Johnson and said He would like to Have him clerk for Him and be President for Him and do some other Chores. But Ban Johnson, who is also a Wize Gazabo, said "Rats!" and now Charles is so Busy that He will have to appoint Himself assistant to Himself.

Moral: You can't Tell from where you Sit how your Picture is going to Take.

Edgar Hahn, of Nevada, O., has been reserved by the Fort Wayne club.

Next Wednesday evening the St. Joe Athletic club will give a sparring exhibition at the club house on Spy Run avenue. "Kid" Mitchell, of Chicago, and "Kid" Sauer, of Jackson, will be the principal contestants.

Tommy White and Terry McGovern will meet in a four-round go at Milwaukee next Saturday night.

Next spring Sam Harris, McGovern's manager, will tour him on the Pacific coast and will meet all comers in handicap bouts. Harris has a good machine and proposes to work it for all it is worth.

STOCKHOLDERS' MEETING!
NOTICE OF ELECTION!

Fort Wayne, Ind., Dec. 5th, 1900.

The annual meeting of the stockholders of The First National Bank of Fort Wayne will be held at its banking house, Tuesday, January 8th, 1901, between the hours of 10 o'clock a. m. and 1 o'clock p. m., for the election of seven directors to serve the ensuing year.

6-4m LEE R. HARTMAN, Cashier.

Matrons of infant asylums say that a young infant will be cross all day if dressed in a gray frock, but contented and happy if dressed in a bright red frock. Children from two to four are much less affected by the color of their dress. It is commonly observed in kindergartens that the younger children prefer the red playthings, while the older children prefer the blue.

TAKE A LAST LOOK

AT FAMILIAR FACE OF A WELL-LOVED FRIEND.

FUNERAL OF C. L. DRUMMOND

A TOUCHING TRIBUTE TO HIS MEMORY TODAY.

FUNERAL TRAIN TOMORROW

WILL CARRY MANY FRIENDS TO HUNTINGTON.

As The Sentinel goes to press this afternoon an immense throng of Fort Wayne friends and acquaintances of the late Charles L. Drummond are gathered at the First Baptist church to pay a tribute of respect to his memory and to take what will be for many of them a farewell look at the familiar features of one who through many years has ingratiated himself deeply into their friendship and esteem.

AT THE BAPTIST CHURCH.

The services at the First Baptist church this afternoon were simple in character and deeply impressive to the large audience present. The musical service was rendered by a quartet composed of Mrs. S. C. Moffat, Mrs. William Miles, Clint Willson and Samuel R. Taylor, with Miss Lillian Mathis as organist. They sang "Rock of Ages" and "Lead Kindly Light" with much feeling.

Rev. Dr. L. L. Henson, of the Baptist church, and Rev. Dr. D. W. Moffat, of the First Presbyterian church, were the officiating clergymen, and each in a few remarks told of the admirable character, the sterling worth, the unfailing kindness and the sturdy honesty of Mr. Drummond as attested by his years of life in Fort Wayne and reaffirmed since his death by universal expression of sorrow.

At the conclusion of the service the friends were permitted to take a last look upon the face of the dead. Disease had not wasted the features and the appearance of the face was very lifelike. The remains are to remain in the church in charge of members of the Press club and the Typographical union until 8 o'clock this evening, when the funeral party will leave for Huntington.

The funeral service proper will be held at the Baptist church in that city tomorrow afternoon immediately upon the arrival of the funeral train from this city. The interment will be at Mt. Hope cemetery, at Huntington.

MANY FLORAL TRIBUTES.

Mr. Drummond in life was a lover of flowers and the offerings today were especially profuse and beautiful. An immense spray of white chrysanthemums, the tribute of the Fort Wayne Press club, completely covered the lower half of the casket. Other pieces included a harp of lilies, roses and violets from E. A. K. Hackett; Fort Wayne Typographical Union No. 78 sent a beautiful star and crescent; The Sentinel employes' remembrance was a lyre set with roses, lilies, chrysanthemums and violets; Hive No. 6, Ladies of the Maccabees, presented a handsome bouquet of cut flowers, and Mr. Drummond's fellow-laborers upon The Sentinel editorial staff gave expression of their regard in a pillow of roses, chrysanthemums and ferns. It bore the initials "C. L. D." and below them the symbol "30," signifying "the end." The Hoagland school also sent an offering, as did also many personal friends of Mr. Drummond.

THE PALL BEARERS.

The pall bearers were selected from the membership of both the Press club and the Typographical union. Mr. Drummond having been actively identified with each of these organizations. The pall bearers selected were:

Active—From the Press club, O. L. Perry, S. C. Moffat, of the News, and H. M. Williams, of The Sentinel; from the Typographical union, Herbert A. Rogers, Lewis Melsheimer and W. A. Hall.

Honorary—From the Press club, T. E. Brennahan, of the Journal-Gazette; J. T. Dodgell, of the News, and C. O. Essig, of The Sentinel. From the Typographical union, E. D. Scheimann, Claude F. Baker and DeMott C. Gardner.

THE FUNERAL TRAIN.

A special train over the Wabash has been provided by the Press club to accommodate the friends of Mr. Drummond who desire to attend the funeral service at Huntington tomorrow, and it is probable a large party will go. The train will leave Fort Wayne at 1:45 o'clock Friday afternoon and return about 5 o'clock. Inquiry concerning the arrangements may be made at any of the newspaper offices.

PRINTERS TAKE ACTION.

Fort Wayne Typographical union held a special meeting at 5 o'clock Wednesday evening to take suitable action upon the death of Mr. Drummond, and the following committees were appointed:

On Resolutions—Claude F. Baker, E. D. Scheimann, Samuel E. Rice.

On Floral Tribute—DeMott C. Gardner, Alexander Lipes, Herbert A. Rogers.

COURT NEWS.

Superintendent Young reports that the small pox scare is creating considerable excitement in the eastern part of the county and in consequence eleven schools in Jackson, Jefferson and Monroe townships are closed.

The decorators are at work in the law library room of the court house.

—In the Superior Court.—

The jury in the case of Marx vs. Weil, after being out all night, returned a verdict this morning. The finding was for the plaintiff in the sum of $173.57.

The case of Joseph W. Bell vs. Jos. Miller, on account, is being tried before a jury.

—In the Circuit Court.—

The case of Grace Kappel vs. Catherine Kappel has been reset for trial January 9.

The case of the state vs. Henry A. Miller, for violation of the liquor law, has been set for January 10.

NEW SUITS.

William R. Little sues Herman W. Tapp on contract; demand $150.

Emma Bessert has commenced action in replevin against Gustave Bessert; demand $100.

BEFORE FRANCE.

An affidavit has been filed against Daisy Bushor for selling liquor without a license. The case will be tried by Justice France this afternoon.

Daisy Bushor is the defendant in another case in which she is charged with provoking Mayme Mild. The case is now being tried.

Edward Nowek, a Frenchtown saloonkeeper, was tried for violating the liquor law in selling liquor on Sunday.

BEFORE HUSER.

Cleveland Strong, of St. Joseph township, entered a plea of guilty to committing assault and battery on his daughter, Edith Strong. A fine of $1 and costs was assessed and the docket was stayed.

The pugnacious Mr. Strong then turned about and filed an affidavit for assault and battery against Harry Duley, whom he thought unduly officious in mixing up in the other case. Mr. Duley will have his inning this evening.

Steketee's Neuralgia Cure

Price, 50c.

Ask druggists for Steketee's Neuralgia Drops. Take no substitute.

GEO. G. STEKETEE,
Grand Rapids, Mich.

THE MARKETS.

Chicago, Dec. 6.—Lower cables and liberal northwest receipts caused liquidation today in wheat. January opened ⅛@¼c to ⅜@½c lower at 71½ to 71¼c, reacted to 71½@71⅝c and then eased off to 71¼@71⅜c. Local receipts were 116 cars, 30 of contract grade. Minneapolis and Duluth reported 583 cars against 498 a year ago.

Corn was fairly active and strong. Showery weather west, small country offerings and the fact that there were but three cars of corn of graded contract our of receipts of 183 cars were factors. The demand was particularly for December, which opened a shade lower at 37⅝c to 37½c and sold to 38c. May opened a shade to ⅛c down at 36½c to 36⅜@36½c and rallied early to 36⅞@36⅞c.

Oats were dull. May opened unchanged at 23⅜c. Receipts were 144 cars.

Provisions were nervous and irregular, save for lard, which held steady. Light hogs receipts helped the market at the start, but later lard and ribs were offered with such liberality that most of their early advance was lost. January pork opened a shade higher at $12.22½@12.25, advanced sharply to $12.37½ and then broke to $12.17½; January lard opened 2½@5c up at $6.92½@6.95 and held at that price; January ribs started 2½c improved at $6.30, rallied to $6.42½ and then reacted to $6.32½.

THE CLOSE.

Prices at the close were as follows:

Wheat—Dec., 70½c; Jan., 70¾c; Feb., 71⅛@71⅝c; May, 73⅜c.

Corn—Dec., 37⅝c; Jan., 36½c; May, 36⅜c.

Oats—Dec., 21⅜c; Jan., 21¾c; May, 23¾c.

Pork—Dec., $11.25; Jan., $12.25; May, $12.10.

Lard—Dec., 7.17½c; Jan., $6.92½; May, $6.97½@7.00.

Ribs—Dec., $6.45; Jan., $6.35; May, $6.40.

Flax—Cash N. W., $1.70; No. 1, $1.68¼@1.68⅝; Dec., $1.68; May, $1.67.

CHICAGO LIVE STOCK.

Chicago, Dec. 6.—Cattle—Receipts, 9,000; market generally 10c higher; butchers' stock strong to 10c higher. Good to prime steers, $5.50@6.15; poor to medium, $4.00@5.40; stockers and feeders, $2.25@4.25; cows, $2.65@4.20; heifers, $2.70@3.70; canners, $2.00@2.65; bulls, $2.60@4.50; calves, $3.50@5.25; Texas fed steers, $4.00@5.00; Texas grass steers, $3.35@4.15; Texas bulls, $2.25@3.30.

Hogs—Receipts today, 30,000; tomorrow, 25,000; left over, 3,412. Market 5@10 higher; top, $5.00. Mixed and butchers, $4.65@5.00; good to choice heavy, $4.65@4.97½; rough heavy, $4.50@4.60; light, $4.65@4.97½; bulk of sales, $4.80@4.90.

THE DAY ON WALL STREET.

New York, Dec. 6.—The opening in the stock market was animated and strong. The gains were quite uniform and reached a point or over in only a few stocks. Very heavy blocks were taken of Pennsylvania at an advance of 1¼, and Erie first preferred rose a point on running sales. One or two of the specialties gained a point. Higher prices for Americans in London and strength in the Steel group were the impelling causes of the rise.

Stocks moved in a haphazard manner on large dealings. The regular dividend-paying railroads and specialties receded from their opening prices, but low-priced stocks on which dividends are only prospective rose steadily.

The Erie's were cases in point, the first preferred rising 1⅝, and the second preferred 2 points. St Joe and Grand Island first preferred was up 3½ and do second preferred 1¾. Amalgamated Copper dropped 1⅛ and recovered a point, but Anaconda rose 1½.

All classes low-priced stocks selling under 40 showed marked strength.

There was a general revival of speculative interest in the Coalers and they rose from 1¼ to 2½, Delaware and Hudson excepted. The Eries met realizations enough to keep them below the best. The entire market showed strength, but aside from the low-priced stocks and these mentioned the only property that got a point or more over yesterday's close were Burlington, St. Paul, Pennsylvania, Brooklyn Transit, Third Avenue, Metropolitan Street Railway, Pressed Steel Car and Tennessee Coal. A break of ⅛ in Tennessee Coal caused an easier tone before noon, especially in the Steel stocks. Middle and low grade bonds were absorbed heavily in the bond market.

THE MONEY MARKET.

New York, Dec. 6.—Money on call steady at 4½c; prime mercantile paper, 4@4¼ per cent; sterling exchange easier with actual business in bankers' bills at $4.85@4.85¼ for demand and at $4.81½@4.81⅝ for 60 days; posted rates, $4.82½ and $4.86½; commercial bills, $4.80¾@4.81¼; silver certificates, 64@65; bar silver, 64½c; Mexican dollars, 50⅜c.

THE BOND MARKET.

New York, Dec. 6.—Government bonds steady:

BANKER MORGAN ASSIGNS

New York, Dec. 6.—Charles W. Morgan, who did business in this city and Philadelphia under the name of C. W. Morgan & Co., stock brokers, and who was arrested yesterday, made an assignement for the benefit of his creditors today to Bert Hanson, a lawyer. Hanson said he had no idea at this time as to the extent of the assets and the liabilities. He suggested to the creditors that they write to him and in that way make known the extent of their claims. He further said that Mr. Morgan had assigned to him all of his personal property.

JUST SAVED HIS LIFE.

It was a thrilling escape that Charles Davis, of Bowerston, Ohio, lately had from a frightful death. For two years a severe lung trouble constantly grew worse until it seemed he must die of consumption. Then he began to use Dr. King's New Discovery and lately wrote: "It gave instant relief and effected a permanent cure." Such wonderful cures have for twenty-five years proven its power to cure all Throat, Chest and Lung troubles. Price 50c and $1.00. Every bottle guaranteed. Trial bottles free at Dreier & Bro.'s drug store.

PERMANENTLY DISCHARGED.

August Don, who was sent to the reform school in November, 1897, and was paroled over a year ago, maintaining good behavior throughout, has been permanently discharged.

For chapped hands, face and lips use Loesch's Toilet Cream. Nothing finer. It is not greasy or sticky.

BRAVE MEN FALL

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. J. W. Gardner, of Idaville, Ind., says: "Electric Bitters are just the thing for a man when he don't care whether he lives or dies. It gave me new strength and good appetite. I can now eat anything and have a new lease on life." Only 50 cents, at Dreier & Bro.'s drug store. Every bottle guaranteed.

The little boys can be pleased at Patterson's in top coats, reefers or suits.

Call for the Eclipse 5c cigar and you will be getting the greatest possible value for the money.

Comic Opera, I. S. F. M. Y., Dec. 6, 7 and 8. Reserved seats at Woodworth's; 25c. 5t2

INCREASE STOCK

PENNSYLVANIA WILL MAKE NEW ISSUE IN MARCH.

VERY BUSY ESTABLISHMENT

EAST CAR SHOPS IN OPERATION TWELVE HOURS DAILY.

EXPERIMENTS IN ACETYLENE

PENNSYLVANIA TRIES NEW LIGHTING METHOD.

Philadelphia, Dec. 6.—The Pennsylvania railroad, whose officials gave notice to the stockholders at their last annual meeting that they would be asked to authorize an increase in the present authorized capital stock of the company at their annual meeting in March next, will not be required to obtain the sanction of the legislature, as has been erroneously stated, and as has heretofore been required. Beyond saying that the proposed increase in capitalization will be made Pennsylvania officials decline to discuss at this time the amount of the increase which the stockholders will be asked to authorize.

TRYING A NEW LIGHT.

Experiments with acetylene gas now in progress on the Pittsburg road may result in a change in car lighting methods on that railway. The system under trial is the Adlake, and as far as the experiments have gone they have been most satisfactory. The Adlake acetylene gas system consists of two carbide and two water tanks, gauges and cooling coils inclosed in a neat oak cabinet; four chandeliers, suspended from the car ceiling in the usual manner, each having four lights, connected with the tanks by means of pipes hidden from view. Each lamp is surrounded by a six-inch opel globe, which modifies the rays without impairing their illuminating powers. The effect is most pleasing to the eye, making the interior of the car as "light as day" without that disagreeable and injurious glare sometimes accompanying the rays of other illuminants. Coach 189 is so equipped and is now in service in and out of this city, accompanied by experts. The plant was installed by J. A. Mosher, of Chicago, representing Adams & Westlake, the manufacturers. The preliminary tests were conducted by Pennsylvania Gas Inspector Johnson, of Pittsburg, and Electricians A. C. Davis and William Sherbondy, of this city, last Tuesday night, in the presence of an interested group, composed mainly of railway men. The illuminating qualities of acetylene as developed by that test were a surprise to the spectators. The car has been turned over to active service and is now making regular trips over the road, in company with two other especially equipped cars, one with oil lamps and the other with electricity. Experts are constantly with them to note results. The manufacturers claim that acetylene is cheaper and the Adlake system of generating the gas less complicated than that of any other gas. It certainly gives a good light. Each car equipped with this system has two tanks always connected with the apparatus and two reserve tanks, each containing carbide sufficient to run the lights seven and a half hours, making thirty hours continuous service if necessary.

WORKING OVERTIME.

The car builders and men employed in the passenger department of the east car shops of the Pennsylvania are working twelve hours per day. The company is putting a lot of its passenger cars through the shops and getting them ready for the holiday business, which is going to be unusually heavy this winter. The vegetable cars, upon which the car builders are engaged, are also badly needed, and construction of them is being crowded forward as rapidly as possible.

ARM WILL BE RESTORED.

H. F. Raiter, a caller of train crews for the Pennsylvania, is one of the happiest men in the city. Two years ago he had his right elbow crushed in an accident and the limb, until quite recently, was practically useless. A short time ago Dr. E. J. McOscar, the company's surgeon, performed an operation on the elbow and Mr. Raiter believes that the arm will soon be restored to normal conditions. He is so much improved that he resumed his duties this morning.

WILLING TO AID THE BOERS.

The managements of the Santa Fe and St. Paul systems have expressed willingness to aid in the movement to bring Afrikanders to this country for settlement. These two roads were informed Saturday that 600 Boer families soon would come to this country, and an interested person in New York telegraphed to find out what the roads would do toward colonizing the foreigners. E. D. Kenna, of the Santa Fe, sent this message:

"The Santa Fe company will gladly aid in the work you mention and heartily welcome the thrifty and courageous Boers as colonists anywhere on the lines in its system. This is the sort of expansion we heartily favor."

SICKNESS AMONG TRUCKMEN.

Sickness seems to be prevalent to an unusual extent in the ranks of the truckmen at the Pittsburg freight house. The cause is attributed by the men to the weather, which is too warm for heavy clothing and too cold for light clothing. As a result they work with their coats on until they become uncomfortably warm and then shed the garments and contract a bad cold. The medical examiner's books this morning show that six truckmen were yesterday added to the list of those disabled. They are: H. F. Saragen, H. F. McGuire, A. J. Hackenburg, E. N. Call, C. W. Dreibelbiss and A. P. Double. The two latter were victims of accidents.

INDUSTRIAL NOTES.

Conductor W. B. Kitselman, of the Nickel Plate, is taking a few days' rest.

J. S. Tyler, Nickel Plate conductor, is in Bellevue, visiting his wife's folks.

C. E. Walton, of Chicago, is in the city today, attending to some private affairs.

Nickel Plate engine 96 went to Stony Island for general repairs yesterday.

Division Freight Agent W. A. Sprott, of the Wabash, was in the city yesterday.

Traveling Engineer A. S. Work, of the Wabash, was in the city yesterday a few hours.

David Murray, a blacksmith employed in the Wabash shops, is sick and unable to work.

Nickel Plate Brakeman L. Schoonover, who had been on the sick list, reported for work yesterday.

Nickel Plate Conductor C. W. Spangler reported for work yesterday, after a few days' rest.

Brakeman W. C. Hooker reported for work on the Nickel Plate yesterday. He had been hunting.

Wilfred B. Garstang, contracting agent for the Big Four, has tendered his resignation, to take effect on January 1.

Master Mechanic G. S. McKee, of the Wabash, will make a trip over the Canadian branch of the system tomorrow.

Ben Bowers, of the car machine shop of the Pittsburg, and his wife left today for Wooster, Ohio, to visit his parents.

C. Ahner and R. Krull, car builders, and W. M. Repine, a machine operator, of the Pittsburg shops, are sick and off duty.

A reduction of about 40 cents will be made January 1 in freight rates on pig iron and billets from Pittsburg to the seaboard.

William Shriver, employed in the Diether planing mills, suffered a badly crushed foot yesterday, caused by a heavy timber falling upon it.

Included in the shipments from the electric works this morning were a 1,000-light incandescent dynamo to Brooklyn, N. Y., and a 600-light dynamo to Dunkirk, Ind.

F. Van Deusen, first assistant general passenger agent of the Pennsylvania lines west, who was called on Sunday to Richmond to bury his mother, returned to Pittsburg yesterday.

Pittsburg Engineer Uriah H. Kohler is a temporary cripple, being afflicted with an acute attack of lumbago, which makes moving about an almost impossibility. He has been unable to work for two weeks.

Officials of the Chicago and Eastern Illinois have occupied their new building at Danville Junction, Ill. The new building for the railroad branch of the Young Men's Christian association is nearing completion.

President J. H. Reed, of the Pittsburg, Bessemer and Lake Erie, announces that the Carnegie Steel company is prepared to lease that railroad if the minority shareholders are generally willing to accept its proposition.

The position of train dispatcher on the Toledo, St. Louis and Western has been abolished, and the office of division superintendent created. H. Jones has been appointed to the new position, with headquarters at Frankfort, Ind.

Pittsburg Engineers Joseph Lesper and H. Kruse are on the sick list.

Boiler Foreman Frank Benoy, of the Bass shops, is in Muncie today on business for the company.

Mrs. E. Wood, wife of a Pittsburg passenger fireman, has gone to Plymouth, Ind., to visit her relatives.

Martin Sorg was able to report for duty at the Pittsburg boiler shop this morning after an illness of a week.

Louis Gronau, who was taken sick November 27, was able to report for duty at the Pittsburg planing mills this afternoon.

Frank C. Bardey has been transferred from the Pittsburg blacksmith shop to the road service and given a position as brakeman.

B. F. Wood, assistant mechanical engineer of the Pennsylvania's Altoona shops, is in the city today on business for the road.

A son was born to Mr. and Mrs. Frank Doriot last night. The father is stenographer in Master Mechanic B. Fitzpatrick's office.

John Lindon, who was detained at home several days on account of the sickness of his wife, reported for work at the Bass blacksmith shop this morning. The lady is better.

Fred Nahrwold, of the boiler shop, and N. Miller, of the planing mills, of the Pittsburg, are sick, and Fred Paul, of the latter establishment, is taking a leave of absence to attend to some private business.

Charles Soest, who has been employed as a brakeman on the Pittsburg road for a few months, will retire from that position tonight. It is understood that he will return to his trade, that of barber.

On November 1 the second gold medal given by the Baltimore and Ohio to a pensioned engineer was awarded to Joseph West, of Martinsville, W. Va., who in fifty-three years of service never had a serious injury nor a wreck of any consequence.

John H. McVey, who has been visiting relatives in the city for a week, left last night for his Missouri home. Mr. McVey was formerly a conductor on the Nickel Plate. He is now similarly employed on the Hannibal and St. Joseph road. He has been offered the position of assistant yardmaster at Kansas City and may decide to accept.

It is said that the Vanderbilts had not purchased the Cincinnati Northern with the intention of making it a part of the Lake Shore system, but for the purpose of making it a part of the Big Four system and establishing a line to Toledo, the Cincinnati Northern connecting with the Big Four at Middletown, thirty-six miles from Cincinnati. The Big Four for some years has been endeavoring to establish a Toledo and Ohio Central, but the demands of the latter made it impracticable for the Big Four to perfect such an arrangement.

MUNYON'S COLD CURE

When Prof Munyon says what his Cold Cure will do he only says what all the world knows. Nearly everybody seems to be taking this remedy whenever a cold appears. It relieves the head, nose, throat and lungs so quickly that a cold need no longer be a forerunner of grippe, diphtheria or pneumonia.

Everyone of his remedies is as sure. At druggists, 25c. vial. Guide to Health free. Write to Broadway and 13th St., New York, for medical advice free.

THE LITTLE SICKNESSES

Which Grow Into Big Ones.

A little cold in the head is a trifle, but if neglected and it hangs on from week to week and gets into the throat and lungs it is no longer a trifle. It is then no longer a slight cold but the beginning of chronic catarrh.

Do not make the mistake of thinking you have no catarrh because the head and nose appear to be clear. If there is cough, tickling in the throat, hoarseness or a sense of oppression in the chest you have throat and bronchial catarrh. If the appetite is poor, nausea, gagging and disgust for food, especially in the morning, you have catarrh of the stomach.

The surest and safest treatment for every form of catarrh is an internal remedy which acts especially on the blood and mucous membranes.

Such a remedy is the new catarrh cure, sold everywhere by druggists under name of Stuart's Catarrh Tablets, a medicine in pleasant, convenient tablet form and containing all the best and latest specifics for catarrh, whether located in nose, throat, bronchial tubes or stomach.

Stuart's Catarrh Tablets are composed of Sanguinaria, guaiacol, Red gum and similar antiseptics which destroy the germs of catarrh in the blood, and no one who suffers from any form of catarrh and has seen the uselessness of sprays, douches, and powders will ever go back to them after once trying so convenient, pleasant, and harmless a remedy as Stuart's Catarrh Tablets and one which gives relief in so short a time.

Even in cases where catarrh has affected the senses of smell and hearing, these tablets accomplish a cure because the blood being cleansed of catarrhal germs, the mucous surfaces of the nose and throat no longer clog up the respiratory passages with catarrhal secretions.

All druggists sell full sized treatments of Stuart's Catarrh Tablets for the nominal price of 50 cents and the regular daily use of them will effectually cure this troublesome and dangerous disease.

MUST LIMIT THE PRESSURE

THE ONLY WAY TO PREVENT EXPORTATION OF GAS.

Under the Present Law Pipeline Companies Can Operate Pumping Plants Without Limit.

Marion, Ind., Dec. 6.—State Gas Inspector Leach, who, under the direction of the state geologist and attorney general, is investigating the pressure used by pipeline companies, is now making an inspection of the company's stations in Liberty township, this county. Mr. Leach was in Marion yesterday, and was questioned as to the result of his work, but he replied that he had been instructed by the attorney general to make the first report to him.

Mr. Leach is of the opinion that nothing is to be gained in attempting to restrict the pipeline companies to the statutory limit (300 pounds) in pressure, but if it is expected to prevent the exportation of gas, it must be done by prohibiting the use of pumps altogether. As the law now stands, there is nothing to prevent the pipeline companies from erecting and operating pumping stations in addition to those now in use, thus enabling them to carry the gas to the desired point without violation of the statutes.

"For example," he says, "it is about 125 miles from the Indiana Natural Gas and Oil company's station, at Greentown, to Chicago. It might require a pressure of 400 pounds at Greentown to force the gas through to Chicago. But by putting in a pumping station every thirty or forty miles, the company could carry the gas to Chicago without employing a pressure above 250 pounds. Thus, such a decision, while involving a considerable outlay of money by the pipeline companies, would not prevent the exportation of gas."

Mr. Leach is preparing a bill which will have to do with the regulation of plugging abandoned wells. He is of the opinion that many wells are not properly plugged. He says that when the well is abandoned, and the plugging put in the top of the well, the salt water rises to the plugging and is then absorbed by the surrounding earth, filling up any well that may be drilled in the neighborhood. This condition serves to produce the worst evil of the gas field, as it practically ruins the availability of the gas in the neighborhood. The present law prescribes accurately how the wells shall be plugged, the purpose of the law being to leave the wells substantially as they were before they were drilled. Mr. Leach is anxious to have the law amended in just such a way that it may be enforced. His idea is to require each driller who has plugged a well to file with the county recorder within a certain number of days, affidavits by two responsible witnesses, to the effect that they know that the well has been plugged according to law. The inspector has not prepared the bill, but will do so as soon as he investigates the laws of other states in this matter.

TWENTY-SIX KILLED.

Mexico City, Dec. 6.—An explosion of dynamite Tuesday at the mines of San Andres de la Sierra killed or wounded many miners. At the latest advices twenty-six dead bodies had been recovered. Fifteen injured persons, some of whom will die, were taken from the wreckage and the ruins are thought to contain other victims. It is not known as yet how the explosion occurred, but nine cases of dynamite blew up at the powder house with an appalling roar, shaking the country for many miles around. When the panic had partially subsided the wives and children of the miners hurried to the scene, finding all the buildings wrecked and dead bodies fearfully mangled lying about.

BELIEVE HE WAS MURDERED.

Easton, Pa., Dec. 6.—It has been learned that the stranger who was found dead on September 29 in a park at Southampton, England, and who was thought to have committed suicide, was Carl F. Weiler, a former resident of Easton. Naturalization papers in his pocket led to his identification. Three years ago Weiler left this country for Germany to secure a large estate that had been left to him by an uncle who died at Wurtemburg. A son of Weiler, residing in the latter place, has written that when his father left Wurtemburg in August he had about $3,000 in his possession. Easton friends of the dead man are of the opinion that Weiler was murdered and robbed and the United States authorities have been requested to have a thorough investigation made of the matter.

WABASH MEXICO TOUR

SECOND ANNUAL PILGRIMAGE,

1901.

Under the Personal Direction of Mr. R. G. Thompson.

The Hon. James A. Gary, of Baltimore, Md., Ex-Postmaster General of the United States, in the Mexican Herald, City of Mexico, said in an interview:

"Our trip to Mexico with the 'Wabash Mexico Tour' has been an exceedingly pleasant one. I have not until now looked with favor upon traveling in this manner but I know of no wiser nor more delightful way to visit a foreign country than with a party managed by so capable and attentive a person as Mr. Thompson. It would be impossible for him to do more than he has done that would contribute to the pleasure and enjoyment of his guests."

The next grand thirty days outing to Old Mexico, covering over 7,000 miles of travel in a special train of six Pullman cars, including dining car, serving all meals en route, will leave on February 27th, 1901.

Cost of this tour covering every legitimate expense, such as railroad fare going and returning, one-half section in sleeping car, all meals in the dining car, hotels, side trips, services of guides, interpreters, conductors, etc., will be $320 from Fort Wayne.

MEMBERSHIP STRICTLY LIMITED TO SIXTY (60) PERSONS.

An Elegant 68 page Art Souvenir Itinerary is now ready. If interested in the Tour apply to

Undertaker and Embalmer,

NO. 17 WEST WAYNE ST.

Several of the European general staffs are studying the feasibility of organizing a special corps something after the Boer model. The principal difficulty lies in the limited supply of horses at the command of the various governments, with the exception of Russia. The last equine census in that country is stated to have shown considerably more than 10,000,000 horses fit for war purposes.

FIGHTS ARMY BILL

M'CALL, OF MASSACHUSETTS, OPPOSES MEASURE.

A SENSATION IN THE HOUSE

REPUBLICAN MEMBER VERY HEATED IN TALK.

REVENUE BILL IS PREPARED

GENERAL NEWS OF WASHINGTON AND CONGRESS.

Washington, Dec. 5.—Something of a sensation was created during the debate this afternoon on the army bill in the house by Mr. McCall (Mass.) who delivered an hour's speech in opposition to the bill.

He criticised some of the technical features of the bill, charging that the organization proposed was not economical in that it contemplated the same number of officers for an army of 58,000 as for an army of 100,000.

He was especially severe upon the proposition to lodge in the president for all time, unless congress acted to the contrary, the power to double the strength of the army at will.

But it was against the policy of retaining the Philippines and the inauguration of a colonial policy that he opened all his batteries.

Members streamed into the house from the cloak rooms when it became noised about that Mr. McCall was speaking and listened with great eagerness to his speech.

IN THE HOUSE.

Washington, Dec. 5.—When the house met today the speaker announced that he had a communication from the family of Mr. Boutelle, of Maine, resigning his position as chairman of the committee on naval affairs.

Mr. Dalzell, of Pennsylvania, from the committee on rules, presented a special order for the house to immediately begin the consideration of the army re-organization bill. No time was set for a vote on the measure.

The resolution was adopted. It was arranged that debate should run for four hours, two hours on a side, and that then the bill should be considered under the five-minute rule.

Mr. Hull opened the debate. He ridiculed the charges made during the recent campaign by the opposition to the effect that the republican party desired to foist upon the country a great standing army.

Mr. Cochran, of Missouri, declared that no army marched on the face of the earth that could accomplish the subjection of the Philippines. Mr. Kleberg, of Texas, and Mr. McClelland, of New York, opposed the bill.

IN THE SENATE.

Washington, Dec. 5.—A bill was passed in the senate today permitting Capt. R. H. McCalla and Commander W. C. Wise, of the United States navy, to accept decorations from the emperor of Germany.

This afternoon Mr. Frye resumed his speech in favor of the shipping subsidy bill, giving details as to the cost of building ships in the United States.

The resolution introduced yesterday by Mr. Pettigrew calling for information as to the postal frauds in Cuba was referred to the committee on relations with Cuba and the senate then went into executive session.

THE REVENUE BILL.

Washington, Dec. 5.—The revenue reduction bill has been completed by the republican members of the ways and means committee and Chairman Payne will introduce the bill before the close of the session today.

It is understood that in addition to the abolition of the stamp taxes on telegrams, express receipts and proprietary medicines, heretofore reported, there will be a reduction of the beer tax to $1.60.

The present tax is $2 per barrel, with a 7½ per cent rebate to $1.85, so that the reduction will be 25 cents per barrel.

Chairman Payne has called a meeting of the full ways and means committee for tomorrow to consider the bill.

The decision concerning beer was arrived at after some division and by a divided vote. It was first attempted to make the reduction on tea, but this was not concurred in, and the question recurring to beer the reduction was decided upon.

The stamp taxes were almost entirely wiped out, with the exception of the stamp tax on stocks.

Members of the ways and means committee estimate the aggregate reductions of the bill as framed at $40,000,000.

The reduction on beer is understood to be by making the rebate 28 per cent instead of 7½ per cent. The 90 per cent rebate on $2 per barrel would be 40 cents, making the new tax $1.60.

THE HAY-PAUNCEFOTE TREATY.

Washington, Dec. 5.—The Hay-Pauncefote treaty concerning the Nicaraguan canal was the subject of a few minutes consideration today by the senate committee on foreign relations, which committee has charge of the treaty in the senate.

The treaty already has been reported by the committee and it was therefore only taken up in an informal way and for discussion only.

No conclusion was possible except to decide to press the question in the senate and there was substantial agreement upon the wisdom of this policy.

There is no division in the committee except upon amendments, although Senator Bacon did not manifest any great concern for the passage of the treaty in any shape. No vote on any subject connected with the treaty was possible in the committee, but the discussion revealed the fact that the committee is evenly divided upon the question of the amendment of the document in accordance with the provision reported during the last session of congress providing for fortification of the proposed canal.

The committee stands:

For the amendment—Messrs. Lodge and Clark, republicans, and Daniel, Bacon and Money, democrats; against it—Messrs. Frye, Cullom, Foraker and Wolcott, republicans, and Morgan, democrat.

The advocates of both lines of policy each express the opinion that the opposing side will in the end surrender.

AMENDMENT TO BANKING LAW.

Washington, Dec. 5.—Representative Brosius, of Pennsylvania, chairman on banking and currency, today introduced in the house a resolution to authorize the controller of the currency, under the limitations of the act of July 12, 1882, to extend for a further period of twenty years the charter of any national banking association which shall desire to continue its existence after the expiration of its present charter.

SLATED FOR OFFICE.

Washington, Dec. 5.—The president today sent the following nominations to the senate: Roy H. Chamberlain, of Iowa, to be collector of internal revenue, district of Hawaii; Benjamin H. Tattem, of Montana, to be assayer in charge of the assay office at Helena, Mont.

NEW BILLS IN THE SENATE.

Washington, Dec. 5.—Among the bills introduced in the senate today were the following:

By Senator Pritchard—The bills prepared by the commission appointed by the president, providing revisions of the patent and trade mark laws.

By Senator Hale—To revive the grade of vice admiral in the navy.

By Senator Thurston—Creating an additional judicial circuit, to be designated as the Tenth, and to include the states of Kansas, Nebraska, Colorado, Wyoming, Utah and Montana, and creating a court of appeals for the circuit.

By Senator Warren—Permitting the free admission of honorably discharged soldiers and sailors into any hospital of the United States for medical or surgical treatment.

AFRICAN LIQUOR TRAFFIC.

Washington, Dec. 5.—The senate committee on foreign relations today granted a hearing to the representatives of several temperance and reform associations in support of the treaty providing for the control of the liquor traffic in Africa. Among those present were Bishop Hartzell, bishop of the Methodist Episcopal church of Africa; Mrs. Stevens, president of the W. C. T. U., and also representatives of the Anti-Saloon league, the National Temperance society, and a committee of the Presbyterian church. Bishop Hartzell made the principal address, and he strongly urged the importance of the ratification of the treaty at as early a day as possible, saying that it was necessary to the welfare of the black races in their native continent.

Members of the committee assured the bishop of their indorsement of the principles involved and informed

(Continued on Eighth Page.)

WHITE PARDONED

GOVERNOR PINGREE FREES HIM PROMPTLY.

WAS IN PRISON BUT A DAY

MARSH ALSO THE RECIPIENT OF CLEMENCY.

GOVERNOR GIVES REASONS

OTHER RASCALS HAVE BEEN ALLOWED TO ESCAPE.

Detroit, Mich., Dec. 5.—Yesterday morning Gen. Will L. White, ex-quartermaster general of the Michigan national guard, entered Jackson prison to serve, as was supposed, a sentence of ten years for defrauding the state of $43,000 in the famous military board steal. He donned the stripes, was assigned to the prison tailor shop and became known as No. 7,432. Last night Governor Hazen S. Pingree signed a conditional pardon.

Gen. Arbtur F. Marsh, ex-inspector general, of Allegan, who was convicted of the same offense and whose petition for a new trial is pending in the supreme court, was also conditionally pardoned.

By the pardon each man is fined $5,000 and each is given five years in which to pay the fine. One thousand dollars per annum must be paid to the state, the first payment to be made July 1 next. Marsh has not been sentenced and there is some question among attorneys whether a pardon can be granted to him before he has entered upon his term of imprisonment.

APPEALS TO GOVERNOR.

Governor Pingree made announcement of his intention at 10 o'clock last night. Both General White and General Marsh addressed petitions to the governor yesterday asking executive clemency.

In his appeal General Marsh asserted that he was convicted on the evidence of self-confessed perjurers and laid stress upon the fact that the court denied a continuance of the case asked for by his attorney when his principal witness was sick and unable to be present. General Marsh asserted that he was forced to trial when he was wholly unprepared to meet the charges preferred against him.

General White in his petition asserted that it was the Henderson-Ames company, of Kalamazoo, a military supply firm, which conceived the fraudulent transaction and persuaded him into entering the schema. He said the Kalamazoo company assured him when he entered the deal, which involved the sale of a quantity of the state's military clothing to a fictitious company organized by the Henderson-Ames company and its repurchase at four times the sale price, that it was perfectly legal.

When he became convinced that the deal was illegal, White declared, he wanted to go to the governor and explain it to him, but the Kalamazoo company assured him its standing would preclude any investigation being made, and in the event of one being made they would wholly protect him. White then laid stress on the fact that none of the members of the Henderson-Ames company have been indicted for their part in the transaction. The general declared that he believed from what he had learned of the treatment of the transaction by the officials at Lansing, where he was tried and convicted, that he cannot hope for fair treatment at their hands and therefore asked for executive clemency.

PINGREE STATES REASONS.

Governor Pingree's announcement of the pardon says:

"These men entered into a conspiracy with the Henderson-Ames company, a corporation composed of prominent and influential citizens of Kalamazoo, to defraud the state of a large amount of money in connection with the sale and repurchase of military clothing. One Bickerstaff, who was the agent for the Henderson-Ames company, was, according to his testimony, active in engineering the fraud. The circuit judge and the prosecuting attorney of Ingham county, who had control of the proceedings before the grand jury, made no effort to have the grand jury bring all the guilty parties to justice, but permitted the seven members of the Henderson-Ames company and their agent Bickerstaff to go free.

"This ineffectual and one-sided kind of justice is not consistent with my ideas of right and wrong and has had great weight in determining my action in these cases. Restitution has been made to the state by the Henderson-Ames company and Marsh & White, and the amount which the state lost by the original transaction has been returned with interest. Restitution having been made, my impulse is to place all the guilty ones again on the same footing, and I therefore grant William L. White and Arthur F. Marsh a pardon upon their paying into the treasury of Ingham county $5,000 each."

The pardons granted to Generals White and Marsh last night by Governor Pingree were brought here at noon today, attested by the secretary of state and the seal of the state attached.

General White's pardon was delivered to his brother, who took it to Jackson this afternoon.

White will be released immediately upon delivery of the document to the warden of the penitentiary.

ARE A VERY TOUGH CROWD

BAND OF NOMADS CAMPED WEST OF CITY.

Woman Makes Appeal for Aid—Humane Officer Investigates and Finds Her to be a Fraud.

Yesterday a woman called on Humane Officer Schlaudroff and told a heart-rending tale of woe. She said that she, with her husband and family, were traveling overland and were camped on the Huntington road about a mile west of the Bluffton road, where her husband was taken desperately ill and was lying at the point of death. She wanted assistance in a financial way. The humane officer thought he would investigate before opening his pursestrings and accordingly made a drive to the locality named. He found the camp without difficulty, but could find no sick man. He found some other men, one of whom was intoxicated, and they said that there had been no sick man and that the woman's husband is in an insane asylum. Another man said she had no husband. The officer soon discovered that the lot is a decidedly bad gang and this morning took steps looking toward driving them out of the county. He says they are the toughest proposition he has seen for many a day.

SUPT. FELTS HAS RESIGNED

WILL RETIRE FROM POOR FARM MARCH FIRST.

Commissioners Not Hasty to Appoint a Successor—Resignation Was Not Unexpected.

Herman W. Felts, superintendent of the poor farm and county infirmary, today presented his resignation to the board of county commissioners to take effect on the first day of March next. The resignation has been accepted and was not the occasion of much surprise, as it was well known to the board and the friends of Mr. Felts that he had the step in contemplation for some time. The board will not be hasty to fill the vacancy, having about three months in think the thing over. There will, however, be no lack of applications and already several names have been prominently mentiond.

LABOR FORCES TO MEET.

Louisville, Ky., Dec. 5.—All is in readiness for the opening of the twentieth annual convention of the American Federation of Labor at Music hall tomorrow. The preliminary details have all been arranged by the executive council. The credentials committee has passed upon the credentials of 210 delegates, all of whom will be admitted. Among the leaders already here are W. H. Haskins, president of the Ohio State Miners' association, and Patrick Dolan, president of the Pittsburg District Miners' association.

STORMS SWEPT BRITAIN.

London, Dec. 5.—Storms have been sweeping over the British coasts and the ships in the channel have had rough experiences. Several minor wrecks have been reported. The steamer Rocngull, of Plymouth, foundered off the Island of Jersey. Her passengers were saved, but a boat containing nine of her crew is missing.

The case of Marx vs. Weibla occupying the attention of Judge Aikens and a jury today.

LIFE WAS EXTINCT

JACOB BENDER HAD SUICIDED BY SHOOTING.

GHASTLY DISCOVERY TODAY

OLD COACHMAN ENDS HIS LIFE AT HIS ROOM

OVER DEIM'S RESTAURANT

WAS ILL AND DEJECTED AND HAD THREATENED SUICIDE.

Weltering in a pool of blood that flowed from a frightful pistol wound in his head, the lifeless body of Jacob Bender was found shortly before 11 o'clock this morning in his room at the boarding house conducted by Charles Deim, at 263 Calhoun street. Upon the first floor is a restaurant, and above it the sleeping rooms of boarders. It was in one of these rooms, on the north side of the building at the rear, that the sickening discovery was made by Mr. Diem as he went to Bender's room to see why he had not arisen for the day.

The door was unlocked and as he pushed it open its swing was retarded by the prostrate form of Bender lying upon the floor partially behind the door. The proprietor was frightened and hurried to call other people in the house before he ventured inside Bender's room. The sight that greeted them was a horrifying one, and the police and the coroner were hurriedly notified.

Bender's body lay flat upon its back upon the floor, where his overcoat had been carefully spread before the fatal shot was fired. The head of the man was lying near the post at the head of the bed and a great pool of blood had saturated the floor adjacent and splashed upon the wall near the door. The man was fully dressed, except as to coat and vest, and the shirt which he wore was a clean one, which had evidently been donned just before the man ended his life. His arms were extended somewhat from the body, and lying at his left hand, partially beneath the forearm, was an American Bulldog revolver, 38 calibre, from which one shot had been fired. The left hand of the dead man was blackened from burned powder, as though it had been in close proximity to the weapon when it was discharged.

NONE HEARD THE SHOT.

No one about the premises appears to have heard the shot which ended Bender's life, and judging from the condition of the remains the acting coroner, Dr. C. E. Barnett, believes he had not been dead more than two hours. Martin Detzer, a druggist nearly opposite the Diem restaurant, tells the coroner he heard the report of a pistol last evening, but this could not have been the shot which ended Bender's life. The bullet had entered the head at the right temple, ranging downward and backward, and passed entirely through the head. A small piece of the skull of the dead man had been shattered loose by the bullet and was found by the coroner lying near the body.

Coroner Barnett believes Bender made elaborate preparations for ending his life and is inclined to the opinion that he lay down upon the floor, with the revolver in his right hand, at the same time grasping the barrel with his left hand to steady it, this accounting for the blackened condition of the palm of the left hand.

The dead man's clothing was hanging about the room in order. He had few effects in his possession and only forty cents in cash was found.

WAS A COACHMAN.

Bender was a native of Switzerland, but had lived in Fort Wayne many years. He was perhaps 50 years of age and unmarried. Bender was formerly a coachman for Mrs. Eckert, and at one time was in the employ of Dr. Laubach in a similar capacity.

Recently he lost his position and has been in poor health, being confined to his room for several days a week or two ago. He seemed melancholy and dejected, and recently lost a suit for wages claimed to be due him from one of his former employers, and this fact is said to have added to his discouragement.

He came to the Deim restaurant to board about two weeks ago and was in search of work, telling those at the restaurant he expected to get a position at the Ulmer livery stable. Last evening Mr. Diem says Bender ate supper as usual, and after a short trip up town returned about 8 o'clock and was supposed to have gone to his room. There are two beds in the room, one occupied by a man who is employed upon one of the sewers. This man came down to breakfast as usual this morning, and in response to an inquiry told Mr. Diem that Bender was rising as he left the room. Bender did not appear for breakfast, but the proprietor, knowing of his complaining of not feeling well, determined not to call him. No further attention was paid to him until about 10:45, when Mr. Diem went to the room and found Bender lifeless on the floor. A circumstance that puzzled the police and the coroner for a time was the fact that Bender's bed showed no signs of having been occupied during the night, but it is now believed Bender "made up" the bed after arising this morning and before he ended his life with the pistol.

The remains were removed to the Feltier undertaking rooms to be prepared for burial. So far as is known Bender has no relatives in the city.

Several of those with whom Bender has talked recently say he had threatened suicide.

UP TO THE CONTRACTORS

SOME DELAY IN THE DEEP WELL TEST.

Water Works Trustees Refuse to do Any Extra Work for Compressed Air People.

There is no foundation whatever for the statement made by a contemporary that there is a lack of unanimity in the water works board. The delay in commencing the test of the deep wells on the north side, the trustees say, lies wholly with the contractors. The contractors agreed for a consideration of $8,800 to connect six wells and make a thirty-day test by the compressed air system. Now come the contractors and want the trustees to draw the casing in one of the wells and perform other things that are not part of the contract. The trustees have furnished the wells and the contractors were to do the rest, after which the trustees were to pay $2,800, the sum stipulated. That is all there is to it. The wells are there, and the water is supposed to be at the bottom of the wells. The trustees do not care how the contractors get at it and it is now up to them to perform their part of the agreement without any assistance whatever from the trustees.

NEW AMBASSADOR TO ITALY

GEORGE VON L. MYER, OF MASSACHUSETTS, NAMED.

The Appointee is Wealthy and Able to Support the Honors of the Position.

Washington, Dec. 5.—The president today will send to the senate the nomination of George Von L. Myer to be ambassador to Italy.

Mr. Myer is a prosperous business man of Boston, a man of family and about 45 years of age. He is a graduate of Harvard and was a member of the bar. He has been a prominent figure in political life, having been a member of the republican state central committee, a member of the state legislature and finally speaker of the Massachusetts house of representatives.

He is a man of great private fortune, so that he will be able to maintain fittingly the high social status of the American embassy at Rome.

WILL LIVE IN LONDON.

London, Dec. 5.—"Count and Countess Boni De Castellane are negotiating for a house in London," says Vanity Fair, "where, in future, they will spend at least a portion of the year, as Count Boni is deeply hurt at the want of sympathy shown him by his friends and compatriots in his recent financial troubles."

WILL OPEN RAILROAD.

Christiania, Dec. 5.—The railroad between Christiania and Gjovike will be opened Dec. 15. The line is 125 kilometers long and is at an altitude of 1,100 feet above the sea.

CANNOT SEE ARBITRATION.

The Hague, Dec. 5.—During the debate on the budget in the second chamber here today, the premier, Dr. Pierson, declared he could not at present foresee the pshycological moment when the Netherlands would be able to propose arbitration between Great Britain and the Transvaal.

LAST SAD RITES.

FUNERAL OF CHARLES L. DRUMMOND ON FRIDAY.

TO BE HELD AT HUNTINGTON

BRIEF SERVICES IN FORT WAYNE TOMORROW.

FRIENDS MAY VIEW REMAINS

PRESS CLUB ARRANGING FOR A SPECIAL TRAIN.

Few men in Fort Wayne were more widely known or more universally esteemed than was Charles L. Drummond, whose death yesterday was received all over the city with a universal sense of deep personal bereavement. From every hand come the expressions of regret at the untimely death of a young man of exceptional promise and assurances of heart-whole sympathy with his stricken family.

It is with saddened hearts that arrangements for the funeral services have been conducted today, for Mr. Drummond was warmly attached to many outside his immediate family circle. It has been determined that the funeral services will be held at his old home, Huntington, Friday afternoon. There will be brief services in Fort Wayne tomorrow, held at the First Baptist church at 8 o'clock. Rev. Dr. L. L. Henson, of the First Baptist church, and Rev. Dr. D. W. Moffat, of the First Presbyterian church, will officiate, and at the close of this service the friends of the dead newspaper man will be given an opportunity to view his remains. The casket will remain in the church until evening, when the funeral party will go to Huntington and the remains will be taken to the home of his brother, Harry Drummond.

The funeral service proper will be held at the First Baptist church in Huntington Friday afternoon, Rev. Dr. Henson officiating, and the interment will occur at the beautiful Mt. Hope cemetery in that city. The Fort Wayne Press club is arranging for a special train over the Wabash Friday afternoon to accommodate a large number of Fort Wayne friends who have expressed a desire to pay a last tribute of respect to one who was near to all.

TAKE SUITABLE ACTION.

Within a short time after Mr. Drummond's death his fellow-members of the Fort Wayne Press club gathered sorrowfully to take suitable action upon his death. President T. E. Bresnahan, of the Journal-Gazette, appointed H. M. Williams, of the Sentinel; J. T. Dougall, of the News; Arthur Kling, of the Journal-Gazette; Anselm Fuelber, of the Staats-Zeitung, and Karl B. Kerger, of the Freie Presse, a committee on resolutions; S. C. Moffat, of the News; H. L. Askew, of The Sentinel, and Lyman Fox, of the Journal-Gazette, were designated as a committee on floral offering, and Messrs. H. M. Williams, S. C. Moffat and C. L. Perry were constituted a committee to assist in arrangements for the funeral.

During the evening the Press club was in receipt of telegrams of condolence from all the metropolitan newspapers for which Mr. Drummond had been special correspondent. These included the Cleveland Leader, the Cincinnati Commercial-Tribune, the Chicago Record, the Chicago Times-Herald and the St. Louis Republic.

PRINTERS WILL ACT.

A special meeting of Fort Wayne Typographical union, of which Mr. Drummond was a member for many years, meets this afternoon at 5 o'clock to take suitable action upon his death.

STORMS IN THE EAST.

Boston, Dec. 5.—Dispatches from various points on the New England coast show that the storm of last night did considerable damage to the shipping and to sea walls. Except in the case of the schooner Mary A. Brown, wrecked off Portsmouth, N. H., no loss of life has been reported. An unknown schooner of about 100 tons is ashore near the Atlantic house, Scarborough, Maine. The seas are washing over the schooner and she probably will go to pieces. Nothing is known of the fate of the crew.

Retail clerks' union held a meeting last evening at their hall and elected F. X. Didier, J. O. Kramer, J. H. Byerline, J. J. E. Miller and M. M. Miller delegates to the Trades and Labor council.

"THE SALT OF SALTS"

ABBEY'S Effer-vescent SALT

The Well Established Home Remedy of Frank Foyle.

SPLEEN AFFECTION -- A teaspoonful in half a tumbler of water night and morning.

E. H. Loughran, M. D., Kingston, N.Y., says: "I fully indorse the favorable verdict given the use of Abbey's Salt. It is a most pleasant remedy, a good stimulant for the liver, and has a tonic effect upon the entire abdominal viscera."

Sold by most druggists, or sent by mail. 25c., 50c., $1 00 per bottle.

WILL FACE MUSIC

P. E. HAY HAS RETURNED TO FINDLAY.

ACCUSED OF BIG SHORTAGE

IN HIS FUNDS AS CLERK OF HANCOCK COUNTY, OHIO.

ARRESTED IN FORT WAYNE

THE PRISONER DENIES THAT HE HAS DONE ANY WRONG.

Officer Borgman and Detective Striffling at 1:30 this morning arrested P. E. Hay in his room at the Wayne hotel, where he registered under the name of P. E. Evans. He arrived on an evening train from the west on the Nickel Plate and as he stepped from the train the conductor told the officers to shadow him, as he was wanted at Findlay. The officers did so and later the arrest was made on the authority of a telegram from Findlay, O., which stated that Hay is a defaulting county officer and would likely reach Fort Wayne on that train. The facts in Mr. Hay's case are interesting. His name is Presley E. Hay and he is quoted as being a prominent politician, society man and good fellow. Until August last he was clerk of the county courts of Hancock county, O., the county seat of which is Findlay, and he is alleged to be short in his accounts about $11,000. He disappeared on election day and has not since been seen near his old home. In August last he was succeeded as clerk by Wilbur Ewing. There was a large amount of money in the clerk's hands as costs deposited with him pending final settlement of cases in the courts. Instead of turning these monies over to Ewing, Hay postponed the settlement from time to time until finally Clerk Ewing received notice from the circuit court to hold to its order $4,141.32 which had been deposited to secure costs in the case of the State National bank of Cleveland vs. H. W. Briggs. This brought matters to a climax and Clerk Ewing demanded the money from Hay. On election day Hay was to serve as clerk of the election board in his precinct. He came late and when he reached the polls his place had been filled; he voted and walked away, since which time nothing had been heard from him until a few days ago. It was supposed that he had gone to Oshkosh, Wis., where a couple of wealthy brothers reside, but nothing could be learned of him in that vicinity. The amount of his shortage is not known, but it is believed to be fully $11,000, and may reach $15,000. His bond is on file in the auditor's office at Findlay, but the auditor refuses to allow it to be seen and will not at present divulge the names of the bondsmen, although they are known to be amply responsible.

Hay was three times elected clerk and was a candidate for the fourth term, but was defeated at the polls by a democrat after a hotly contested campaign. His family moved in the best society, he spent money lavishly and last winter gave a reception at a clubhouse at which over 200 of the best people of Findlay were entertained. He is a man about 50 years of age, is very well dressed and had some money upon his person when arrested.

The Sentinel saw Mr. Hay this morning and asked whether he had anything to say for publication. He replied that he did not care to make any statement. He was asked whether he was prepared to make a settlement. He replied: "I don't know that there is anything to settle and did not know that my departure had created such a furore as it has. I went from Findlay to Detroit and from there went to West Hampton, where I visited a sister. From there I went to Kansas City, where I transacted some business for a Detroit party and incidentally I was looking for a position in some capacity or for an opportunity to engage in business. If I had not been arrested I would now be in Findlay, as that was my destination. I had intended to stop off here until this morning and then take the early train for Findlay. I am innocent of any wrongdoing and turned over all the money in my possession that was to be turned over."

The prisoner was deeply humiliated and felt his disgrace keenly, restraining his tears with great difficulty.

At noon Police Officer J. M. Hemphill, of Findlay, accompanied by the prisoner's wife arrived and were at once admitted to see the ex-clerk. The meeting between husband and wife was dramatic. The prisoner was formally turned over to the Ohio officer and at 3 o'clock this afternoon the trio departed for the east on the Nickel Plate, Hay going without requisition papers.

HARRIS IS RECOMMENDED.

Washington, Dec. 5.—Representative Overstreet and Chairman Henry called on President McKinley yesterday and recommended the appointment of Hon. Addison C. Harris, of Indianapolis, now minister to Austria, for the office of attorney-general.

Senator Pettigrew's resolution requesting the secretary of war to send to the senate all information regarding the postoffice frauds in Havana is an effort to compel Secretary Root to make public the Lansher report.

Senator Fairbanks presented in the senate yesterday a memorial from the bankers and business men of Indianapolis asking for the abolition of the tax on bank checks.

AN ENTERTAINMENT OF MERIT

PRETTY OPERA BY FEEBLE MINDED CHILDREN.

"The Pay of the Pied Piper" to Be Given for Benefit of the Santa Claus Fund.

"The Pay of the Pied Piper" is the name of the entertainment to be given by the children of the Indiana School for Feeble Minded Youth on Thursday and Friday evenings and Saturday afternoon for the benefit of the Santa Claus fund. Superintendent Johnson and the teaching staff of the school have spent more than five weeks training the children for their parts in the play and the result of their patient endeavor is the production of an entertainment of genuine merit.

The play is a comic opera in three acts and the costumes and stage settings are very elaborate and quite pretty. The children have been well drilled and recite their lines and sing the songs with a smoothness and self-possession that would be most creditable to much brighter minds.

The story of "The Pied Piper of Hamelin," which is the theme of the entertainment to be given this week at the School for Feeble Minded, is perhaps the most popular of all Browning's poetry. It really is founded upon a genuine old legend, and the street leading down to the river, which is shown upon the stage, is still called "Pied Piper Street," and when any traveling musician ventures to play on that street he has his labor for his pains, for nobody gives him a penny.

The legend is that the city at one time was overrun with rats of huge size and great ferocity, so much so that the very lives, as well as the property of the inhabitants, was threatened. In this dilemma the burgomaster and council issued a proclamation begging for help. In response to this appeared a wonderful piper in a fantastic garb of red and yellow, who offered to rid the city of its rats for 1,000 guilders in gold. The bargain was made and the piper by the magic of his pipe drew all the rats after him until they reached the river Weser, into which they were plunged and were drowned, except one old fellow, who lived to tell the tale.

As soon as the rats were drowned the piper claimed his reward, but the councilors refused to pay him, and finally drove him out of the city. The piper again appeared upon the scene, playing such music that all the little children followed him, while their parents were struck dumb and unable to move hand or foot. He turned down the street to the river, and the hearts of the parents sank within them, but he went aside, over the bridge, up to Koppelberghill, where a wonderful cavern opened its door and received them all except one little lame boy, who was left behind, and who always bewailed his lonesomeness and his sorrow that he had not reached the enchanted land which the piper promised by the music of his pipe.

So ends the old legend, also the story as told by Browning, but such a sorrowful ending would never do for a comic opera, so in the play, just as the children are disappearing, the power of speech returns to their parents, they call the piper back, pay him his money, and he leads the children over the bridge, and returns them to their parents, who gather them with rapture into their arms, and the curtain falls to the song, "All Is Well That Ends Well."

STOPS THE COUGH AND WORKS OFF THE COLD.

Laxative Bromo-Quinine Tablets cure a Cold in one day. No Cure, No Pay. Price 25 cents

SUGAR IS ADVANCED.

New York, Dec. 5.—The Arbuckles have advanced the price of refined sugar five points.

"BROMO" not the same as "BROMIDE."

In buying Laxative Bromo-Quinine Tablets, the old standard remedy which CURES A COLD IN ONE DAY, be sure that it is labeled BROMO and not Bromide. At all druggists, 25c.

F. S. Lightfoot transacted business in Huntington yesterday.

MERCIER WARLIKE

FRENCHMAN TALKS OF INVASION OF ENGLAND.

THINKS IT WOULD BE EASY

URGES HIS VAGARIES IN THE CHAMBER.

PROPOSAL IS TURNED DOWN

BRITISH OPINION LAUGHS AT THE SCHEME.

Paris, Dec. 5.—General Mercier, minister of war, caused a deep sensation in the senate yesterday during the debate on the naval bill by pointing out the ease by which England could be invaded. He demanded that the government introduce into the plans for mobilization of the army the navy methods for the rapid embarkation and debarkation of an expeditionary corps. The president, M. Fallieres, intervened, declaring that such proposals were out of order.

In the course of an extraordinary speech General Mercier said:

"In view of the possibility of war with Great Britain the use of the army is not sufficiently taken into account. The times are not the same as they were 100 years ago. Steam, the navy, the telegraph and the railroad have rendered the problem of the invasion of England much easier of solution. Moreover, England herself is no longer the same. The Transvaal has shown that the British army, although brave, is not equal to the task which England expected it to perform. The British navy is powerful, but it has many coasts to defend.

BOASTS OF STRENGTH.

"France, therefore, is numerically England's equal at certain points, and is even her superior in the instruments of destruction. History furnishes many instances of mutiny in the English navy at the moment of battle. A landing in England is, therefore, not beyond realization.

"This is not only my opinion, but that also of high naval officers. The British premier recently expressed significant fears, and if the principle of landing is admitted the practical means of execution may be discussed.

"I venture to think that the work I prepared while commanding an army corps could serve as a basis for such a project, which would not be expensive."

At this point protests were raised and M. Fallieres asked General Mercier not to enter into the details of the scheme.

DAMOCLES' SWORD.

General Mercier replied that the scheme could be "held over the head of England like the sword of Damocles," and he proposed a resolution that the senate should invite the government to complete immediately preparations for the mobilization of the army and navy by preparing everything necessary to embark and disembark as rapidly as possible an expeditionary corps.

Protests were raised from various benches and M. De Lanessan, minister of marine, followed the president's ruling that the motion was out of order in the present debate by declaring amid cheers that the government could not possibly accept it.

COMMENT IN ENGLAND.

London, Dec. 5.—The Morning Post seizes the occasion of General Mercier's speech in the French senate yesterday to criticise the weakness of British defenses, which, it says, must be attributed to red tape; but the papers generally treat Mercier's outburst in a spirit of banter. "It is an idea worthy of the courageous soldier who perjured Dreyfus into a living grave and who, as minister of war, sat shivering with terror during a whole night at the Elysee lest Germany should declare war against France," says the Daily Chronicle, and most of the morning papers comment in a similar strain.

DYING STATEMENT GOES IN.

Eldorado, Kan., Dec. 5.—Despite the strenuous resistance of counsel for defense in the trial of Jessie Morrison, charged with killing Mrs. Olin Castle, bride of her former sweetheart, the alleged dying statement of Mrs. Castle was admitted today as evidence. The statement, which was introduced yesterday, charges Miss Morrison with provoking a quarrel with the bride and then attacking her. Admission of this statement was vigorously combatted by the defense, and in a closing argument today against it Attorney Redden declared it was a concoction of men who sought to convict an innocent girl. Miss Morrison, who had maintained remarkable composure throughout the trial, burst into tears at this juncture and continued to weep for some time.

CHINESE REBELS EXECUTED.

Berlin, Dec. 5.—The Chinese minister here has handed the foreign office officials a telegram from Li Hung Chang to the effect that Sih Liang, the new governor of Shan Si, has publicly executed upwards of eighty rebel leaders and asserting that he is otherwise acting with the greatest severity in the suppression of the boxers, and energetically protecting the missionaries.

BUY BIG STEEL WORKS.

New York, Dec. 5.—The Evening Post says: According to a report that reached Wall street today, Vickers Sons & Maxim, limited, of England, have instituted negotiations for the purchase of the Midvale steel works and the Cramp Ship Building company, of Philadelphia. It is believed the purpose of the English company is to secure a share of the United States government contracts for warships, armor plate and ordnance. The report has it that $7,500,000 has already been offered for the Midvale company and that the Cramp purchase will probably be partly effected by issuing stock of the new corporation to be formed when the deal has been completed. It is said that final arrangements for the deal are to be attempted next week in this city, when Charles H. Cramp will come here to meet a New York banker, who will represent the English company.

SURVEY OF THE CANAL.

Managua, Nicaragua, Tuesday, Nov. 13.—(Correspondence of The Associated Press.)—Preliminary survey work has been begun by engineers on a proposed railroad line to connect Matagalpa with the National railroad at Momotombo, a distance of about eighty miles. This projected line when completed will give the large coffee-growing departments of Matagalpa and Jinotga lower rates and quicker transportation for the coffee crops. The present mode of transportation is by means of two-wheeled ox-carts or mule-back. It is confidently reported here that American capitalists have promised to build this greatly needed road. The re-election of President McKinley has been accepted by the Nicaraguan people as favorable to the progress of this country. The great hope of the people is that he will favor the Nicaragua canal route and that its construction will begin during the early part of his next term.

A NOTABLE LAWYER DIES.

New York, Dec. 5.—Thomas Nolan, assistant corporation counsel, died today. He was stricken with paralysis a few weeks ago and for the last week his condition was regarded as critical. "Counsellor" Nolan, as he was generally called, was a unique and interesting character. He was born in County Cork, in Ireland, and practiced his profession there. About twenty-five years ago he came to this country and was admitted to the courts here ever since. He never dropped his thick brogue and this characteristic, walked with a Connemara boy-cut style of oratory and an easy

reference to the classics, soon made him a well known figure in the courts. The report that he was to speak frequently drew crowds to the court rooms. It was impossible to disconcert him and his easy familiarity with the judges was as amusing as it was difficult to rebuke.

ENJOYING THEMSELVES.

Constantinople, Tuesday, Dec. 4.—Capt. Colby H. Chester, Lieuts. Wm. P. Scott and Wm. A. Moffett and Ensign Leigh C. Palmer, of the United States battleship Kentucky, will remain here until after the selamlik, Friday. The other officers of the Kentucky are expected to visit Constantinople. While at Smyrna Captain Chester exchanged visits with the vali (governor) and the naval authorities. The latter greatly admired the super-imposed turret system of the Kentucky. The government has stopped all telegrams from Smyrna in regard to the Kentucky.

FIVE WERE KILLED.

Inglewood Junction, Ont., Dec. 5.—An engine on the Grand Trunk railway near here early today crashed into a hand car on which were five section men going to their work. Every man of them was killed instantly, some of them being badly mangled. Their names are: John Allen, foreman; Oliver Ellis, Neil McArthur, Arthur Frame and John Teetsell, section men. All the men were married and lived in Cheltonham. The driver and stoker of the engine escaped unhurt.

The Oldest and Best.

S. S. S. is a combination of roots and herbs of great curative powers, and when taken into the circulation searches out and removes all manner of poisons from the blood, without the least shock or harm to the system. On the contrary, the general health begins to improve from the first dose, for S. S. S. is not only a blood purifier, but an excellent tonic, and strengthens and builds up the constitution while purging the blood of impurities. S. S. S. cures all diseases of a blood poison origin, Cancer, Scrofula, Rheumatism, Chronic Sores and Ulcers, Eczema, Psoriasis, Salt Rheum, Herpes and similar troubles, and is an infallible cure and the only antidote for that most horrible disease, Contagious Blood Poison.

A record of nearly fifty years of successful cures is a record to be proud of. S. S. S. is more popular today than ever. It numbers its friends by the thousands. Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of Blood and Skin Diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

SSS We are doing great good to suffering humanity through our consulting department, and invite you to write us if you have any blood or skin trouble. We make no charge whatever for this service.

T. J. Horstman, of Los Angeles, Cal., is in the city on a visit to his brother, H. C. Horstman, of 203 Hanna street. Mr. Horstman is a former Fort Wayne resident, but thirty-two years ago he went west and has not visited here since that time. Mr. Horstman is superintendent of bridges on the Southern Pacific railway.

The Sunday School Association of Christ's Evangelical Lutheran church held its annual meeting last evening and elected the following officers: Superintendent, J. W. Minehart; assistant superintendent, Chris. D. Myers; secretary, Miss Lyda Stout; treasurer, Miss Amy Keil; organist, Miss Lillie Downey; chorister, J. W. Minehart.

Elkhart Truth: "Mrs. Sue Beal, department inspector of the ladies of the G. A. R., of Fort Wayne, who has been in the city inspecting the Frank Baldwin circle here, returned to her home in Fort Wayne today. While here Mrs. Beal was the guest of Mrs. George Colemsn, and reports the Frank Baldwin circle in a prosperous condition, both socially and financially."

The Jewish Chatauqua society will hold its first meeting of the season this evening, in the vestry rooms of the Temple, and some topic to be agreed will be taken up for study. It is also hoped to have occasional open meetings, with lectures, musical numbers, etc. The present officers of the society are: President, Joseph Freiburger; vice president, Miss Minnie Branning; secretary, Miss Hanna Chasks; treasurer, Mr. S. J. Goldstein.

Stop Talking

Listen, while we tell you something about your hair. Did you know that if you would only use a little of Ayer's Hair Vigor three or four times a week your hair would grow very much faster? It restores color to gray hair, too, and stops falling of the hair. And it is a most excellent dressing.

If you do not obtain the benefit you desire from use of the Vigor, write the Doctor. Direct it. He will tell you just the right thing to do. Address, Dr. J. C. Ayer, Lowell, Mass.

SCORED A BIG SUCCESS.

Under the capable direction of Charles Duncan Allen the choir of Trinity Episcopal church gave two hours of rare enjoyment to a big audience at the Broadway theater last evening. It was an "old-time" minstrels and it demonstrated anew the fascination of the bones, the tambourine, the "gags" and the catchy melodies of characteristic minstrelsy. A pretty operetta, "The Birthday Party," was given as a curtain raiser, with S. D. Hanna as "Uncle Joe," Miss Emily Hood as "Aunt Myra," Miss Eliza Hanna as "Gertrude," while the children of the Sunday school made up the guests at the party.

The minstrel first part was attractively staged, the action was rapid, the melodies tuneful and the gags scintillated with local hits that made them take immensely. Mr. Allen was interlocutor, with Ronald Dawson, Charles S. Hanna and William Jones as tambos, and Garrett and Howard Sweringen and Archie Rhodes as bones. Others in the circle made up a nicely balanced corps of vocalists. The ensemble singing was particularly pleasing, and in the individual numbers the end men each scored a triumph. Mr. Hanna's coon ditty, "Sophie," was well received, and Garrett Sweringen had the house going with his "I Took the Heavy Part." Howard Sweringen sang "Mame" very cleverly, and Mr. Dawson gave an excellent rendition of "De Darky Cavaliers." Ray Barrows was heard to splendid effect in "My Heart's Tonight in Texas" and "If I Only Had a Happy Home to Go to," as sung by William Jones was a gem. The house broke into rapturous applause at Archie Rhodes' rendition of "Just Because She Made Them Goo-goo Eyes."

In the olio Masters Rece and Owen Straight introduced a coon song rendered in professional style. C. C. Leggett gave a bones specialty, while James Olive and Master Gage in their tramp and newsboy sketch were favorites. "Squire for a Day," the negro sketch which closed the entertainment, was presented by Frank Ritter, Archie Rhodes, Walter Hamilton, Joe Davis, Alfred Humphrey, James Olive, Carl Woodworth, Douglas Gage and Rece Straight. Upon the whole the entertainment ranked far above the average amateur performance and it is entirely deserving of the liberal encouragement it received. It will be repeated this evening and is certain to delight another large audience.

DON'T NEED REST.

Starved Nerves Need Food.

A food that will naturally stimulate and nourish a man so weak that he cannot feed himself must have intrinsic merit and be worthy the attention of any person with a weak stomach. S. D. Horine, of Grinnell, Iowa, writes: "By pure food seems to me the true way to get well. After a long time at one of the best equipped sanitariums, without benefit, I was put under a famous doctor who said that I did not need rest so much as I needed rich pure blood, made from pure food, and I was put on Grape-Nuts.

"At that time I had to be lifted from my bed like a baby. This was only a few weeks ago. Now I can walk, read, write, and perform many little tasks. I have not fully recovered my strength, by any means, but I have made a most wonderful progress on Grape-Nuts food. It leads me to the knowledge that nervous prostration is simply nerve starvation. The nerves are prostrated because they are starved. A starved man does not need rest, but he needs food.

"To be sure the famished nerves are forced to rest, but rest cannot restore them. They can build up on food alone. With my first meal of Grape-Nuts food I was too weak to feed myself, but after partaking of the food, a hopeful spirit, almost amounting to buoyancy, possessed me.

"I can account for the speedy effect of the food on no other ground than that it is so easily digested that only a little time and force is required to prepare it for the blood, whereas ordinary food requires so much force to digest it that it exhausts what strength a weak man has and leaves the food undigested, ready for decomposition, and changes what should be good food into a veritable poison. Easy digestion and rapid assimilation make Grape-Nuts the ideal food for any one."

SPORTING NOTES.

Charlie Strobel, of Toledo, has again had nightmares about base ball and has had himself interviewed times without number. He evidently imagines that without the aid of his more or less massive brain base ball would speedily die and become a thing of the past. He has just developed a new league to consist of Toledo, Grand Rapids, Fort Wayne, Dayton, Indianapolis, Terre Haute, Louisville and Evansville. Mr. Strobel draws plentifully on his imagination and says that all of the towns mentioned have been communicated with with the exception of Evansville and all have signified their intention of becoming members. Mr. Kautner, of the Fort Wayne club, said yesterday that he had had no correspondence on the subject of a new league, although he expressed himself as favorable to the formation of a circuit which would be compact like the one above mentioned. Mr. Strobel is said to be on a trip along the line and may be expected to blow in here almost any minute. It is also believed, although he does not say so, that Mr. S. is carefully nursing a large presidential bee in his bonnet.

Tommy Ryan and Jack Root have signed articles to fight for the middle weight championship. The fight will probably take place in Cincinnati.

The last foot ball game of the season will be played Saturday at Centlure park between the Tigers and a picked eleven.

MARRIED AT MISHAWAKA.

A pretty wedding occurred Saturday evening, December 1, at the residence of Mrs. Sarah Sesseman, 507 East Joseph street, Mishawaka, when John W. Sesseman and Miss Dora Schultz were united in wedlock. The officiating clergyman was Rev. W. W. Denham, of the Christian church, and a sumptuous supper followed. The guests included immediate relatives and numerous other friends.

LAW PARTNERSHIP.

The firm of Geake & Ballou is a new law partnership recently formed in this city, the gentlemen being W. C. Geake and W. N. Ballou, both of this county. The young men are graduates of the University of Michigan, and their new offices are in the Pixley-Long block.

Saturday afternoon and evening—Matinee and night, "Uncle Tom's Cabin."

Trinity—Thayer—Christmas of Trinity Episcopal church in old cemetery.

CHARLES I. DRUMMOND.

It was with sore heart the writer addresses himself to the discharge of a sad duty to the memory of a dear friend and companion, the associate and co-worker of many years, Charles I. Drummond, of the editorial staff of The Sentinel, died yesterday afternoon after an illness so brief that his death comes with a sudden shock.

The deceased is survived by a circle of personal bereavement by thousands of friends in this city, for his acquaintance was unusually extensive and none knew him but to hold him in esteem warm and sincere. To his associates in newspaper work, whose relations with him were for many years of the closest character the death of this fellow laborer is as the taking away of a brother. Honest, frank, genial, with a nature that beamed with the kindliest humor and a heart that glowed with the very highest attributes of good fellowship, he drew to himself the deeper affections of those whose happy fortune it was to know him best. To them he was both manly man and true hearted brother.

His late associates of The Sentinel staff feel the loss of a co-laborer who was not only a source of strength to each of them, but of a daily companion who made the grind of toil far lighter and put good humor and good cheer into the prosaic round of every day.

As a newspaper worker he was capable, diligent, faithful and valuable. He was always willing and cheerful in the discharge of any duty that fell to his lot, and no task however arduous could wring complaint from his lips. In personal character this like is rare. He was without vice and his life was so lived that his own conscience could never upbraid him. He was abstemious in the most absolute degree, living altogether without indulgence in alcoholic or narcotic stimulants. He was rugged in integrity and once given was faithfull redeemed. His moral courage was of the loftiest sort and he would make no concession to an honest opinion in no man's behalf.

His death is peculiarly sad in the case of a man with the future, who opened the fairest and promise of success of great usefulness and honor.

But he is gone. He leaves in many hearts a vacant chamber that must be filled with the fond memories of memory. Those in whose lives he held a place will mourn, but each in the hope that somewhere on the other side of eternity our book will be linked again.

STANDARD OIL STOCK.

Monday Standard Oil stock made a new record, selling up to $810 a share. Yesterday it sold at $802. Somebody is trying to buy all the stock in the market and it is believed this man is John D. Rockefeller, who at the present time holds only 31 per cent. of the stock of 310,000 shares. Only a few thousand shares are floating, the balance being held by the insiders of the company, the Rockefellers, the Pratt estate, Rogers, Flagler and a few others, next to Rockefeller the Pratt estate being the largest individual holder.

In December, 1899, the Standard Oil stock was quoted at 118. According to the quotations today the value of John D. Rockefeller's holdings in the Standard Oil company have increased from $145,000,000 to $255,750,000.

This by no means represents Mr. Rockefeller's wealth, as he owns 49 per cent. of the total capital stock of the many subsidiary companies which compose the Standard Oil trust. There is little doubt that Mr. Rockefeller is the richest man in the world. The Duke of Westminster and Li Hung Chang are popularly supposed to be the next richest.

NICARAGUA CANAL BILL.

One of the first bills to come before congress for serious and diligent consideration, after the Hanna-Payne shipping subsidy bill shall have been disposed of by the senate, will be the Nicaragua canal bill, though doubtless it will be held back to await the senate's action on the Hay-Pauncefote treaty. While the canal commission has not entirely completed its work, it has sufficiently done so to enable an enlightening report to congress.

The isthmian canal commission, in its report, recommends the Nicaragua route; that a canal thirty-five feet deep at low water be constructed, at an estimated cost of $200,000,000, the Panama route being practically identical with that of the Walker commission. There seems to be little doubt that the Nicaragua route will be chosen and that the Panama route has no other supporters.

The Engineering News believes that the canal may be constructed by the Nicaragua route in less time than would be required to complete the Panama canal; that the cost will not be very different, and that its advantages in location will outweigh any advantages of which the Panama route can boast. The beginning of the Nicaragua canal will likely prove the end of the Panama scheme, which still lacks a hundred million dollars and decade of years to complete.

It is understood that this government has already opened negotiations with Nicaragua as to terms on which the waterway may be constructed. The old boundary contention between Nicaragua and Costa Rica has been settled and no longer offers an obstacle.

It is pointed out, however, that the Hepburn bill is defective in failing to provide any method for carrying out the work of construction, except that "The president shall direct the secretary of war to excavate, construct," etc. Also, that the war department is already overburdened with work, the engineer corps, on whom the labor would fall, having its hands full of river and harbor work and fortifications, besides routine duties. On this point the Engineering News says:

"American engineers are deeply desirous that this great work, when carried out by the United States, shall be performed in a manner that shall bestow the greatest credit on American engineers and engineering methods. Let us have no Panama scandals and no Carter frauds in connection with this work, and let a system be adopted at the outset which will insure honesty and maximum efficiency in all the conduct of the work. As we have said before, if experience does show that these ends can best be accomplished by placing the whole work in charge of a select expert commission, to be appointed by the president—just such a body, for example, as has been investigating the comparative merits of different routes."

SANTA FE DIVIDEND.

New York, Dec. 5.—The directors of the Atchison, Topeka and Santa Fe Railroad company have declared the regular semi-annual dividend of 2½ per cent. on the preferred stock but took no action on a dividend for the common stock.

KILLED AT A FIRE

EVANSVILLE FIREMAN DOES FATAL DUTY.

SEVERAL OTHERS INJURED

LARGE MANUFACTURING CONCERN DESTROYED.

IS ARRESTED FOR ASSAULT

MONTPELIER MAN IN DANGER OF LYNCHING.

Evansville, Ind., Dec. 5.—One life was lost and several persons were injured in a fire early today which destroyed the structural iron works of George L. Mesker & Co., on First street, and Loewenthall's commission house. The losses are estimated at $110,000. The killed and injured were firemen, caught by a falling brick wall.

Dead—Gottlieb Sutbeck.

Injured—James Dunlevy, captain No. 2, leg broken, serious; Stephen Kelley, captain chemical No. 2, arms and face bruised; John Wriver, back injured; Ed Schmitt, back injured; John Fleker, arm broken.

The fire is thought to have originated in the moulding department of the iron works.

FOR CRIMINAL ASSAULT.

Hartford City, Ind., Dec. 5.—Ira Keller, accused of criminal assault was brought here in a buggy by the marshal of Montpelier, as it was feared that he would be roughly handled if kept in the oil town over night. He was a pitiable sight, having had his face beaten into a jelly and beyond recognition by the father of the child he is accused of outraging.

Keller is a wagonmaker and boarded with John Figley and family. Monday the 5-year-old child of the Figlys told her mother that Keller had repeatedly assaulted her within the past three weeks. Mr. Figly lay in wait for Keller when he came to dinner and without ceremony gave him a terrible beating. Keller was arrested and pleaded guilty to the charge of criminal assault, and bond to appear in the circuit court was fixed at $1,000. Being unable to give bond he was taken to jail.

A strong feeling was aroused against him at Montpelier, and it was feared that if left in jail there until night he would be lynched. Keller is 40 years old and unmarried. He says his home was formerly at Rockville, Ind.

WEDDED IN DISGUISE.

New Albany, Dec. 5.—Prosecutor Mayfield, of Jeffersonville, has been requested to investigate a secret wedding of a very unusual nature which took place there recently. The couple, Abe Fouts and Agnes Byrne, of Harrison county, so David C. Harper, a former suitor of the bride and the prosecutor's informant, states, eloped to Jeffersonville September 21, when the bride was but sixteen years old and the groom twenty. The clerk refused them license, and the groom, leaving the office, assumed the disguise of an old farmer so successfully that he returned and secured the license from the clerk by making an affidavit to the ages of the couple under an assumed name. The announcement of the wedding will cause a sensation at the home of the couple.

BRIDE JUMPS FROM TRAIN.

Muncie, Ind., Dec. 5. Miss Ida Elliott, of Elizabethtown, Tenn., jumped from a rapidly moving train while accompanying her mother, Mrs. James Elliott, to this city to make her future home, and, meeting her lover, W. H. Desmondson, was married at Knoxville. This report reached relatives of the Elliotts in Muncie yesterday. Miss Ida Elliott, the bride, has been in this city several times, and it is the belief of Muncie relatives that she realized that to come to the north was to lose her southern sweetheart, and that quick action must be taken. She was not injured by the jump, and, upon joining her chosen companion, the couple sought a clergyman and were married.

STRANGE SPOT IN INDIANA.

Auburn, Ind., Dec. 5.—Steuben county claims the distinction of being the only county in the state having a spot of land upon which vegetation absolutely refuses to grow, while the surrounding soil is apparently the same and very productive. This place is located about a mile south of the Michigan line and near Clear lake, and is the subject of a strange tale told by many old settlers. In a grove at the head of the lake is a circle of earth about fifteen feet in diameter, on which no vegetation will grow. The cause assigned by tradition for this is that this grove was the torture ground of the Pawpeese Indians and that it was in this circle that the stake was set up. It is believed that the ashes of so many murdered human beings has rendered the place accursed and hence this dearth of vegetation.

EGG SHORTAGE IN INDIANA.

Indianapolis, Ind., Dec. 5.—Fresh eggs are growing scarce in Indiana. Armour, Swift and other Chicago packers have had buyers out getting all in sight and the prices have advanced materially. Over 1,000 cases of storage eggs were shipped to Chicago from this city yesterday and the understanding is that the price paid was 20 cents a dozen, which netted the seller a handsome profit, as the market stood at 8½ to 9 cents when the stock went into storage. Country merchants are accumulating all the stock possible to unload to the big advance that seems to be coming.

TWENTY YEARS FOR SLAYER.

Alexandria, Ind., Dec. 5.—James Matthews, who killed Harry Dick in this city last summer, was found guilty of manslaughter and sentenced to prison for twenty years. The crime for which Matthews is convicted was a brutal one. Matthews had thrown Dick down a flight of stairs and then kicked him to death. This is the first murder of the many committed in this city during the last four years in which punishment is meted out.

FIGHTS FOR NATURAL GAS.

Indianapolis, Ind., Dec. 5.—Representative Bonhaur, candidate for speaker, is here in the interest of prolonging the life of natural gas. He says: "There will be introduced in the coming session a bill to obviate the objectionable features of the law of 1889, which the supreme court the other day held unconstitutional. That law was intended to prevent the piping of gas out of the state. I believe that by careful consideration a bill may be drafted accomplishing the same end which the supreme court will hold constitutional.

"Even if it be deemed unconstitutional, in the end it will be a great benefit to the state to pass it, as a law always is in force until held invalid and it might be several years before a supreme court decision is reached, which would mean a prolongation of the supply of natural gas."

TWO KILLED BY LIVE WIRE.

Utica, N. Y., Dec. 5.—Two persons were killed in this city this morning by coming in contact with electric wires that had been broken from poles by the storm during the night and hung down to the sidewalks. The first victim was a Pole, about twenty years of age, who was on his way home from one of the mills where he had worked during the night. The second victim was an Italian lad fifteen years old. He was on his way to one of the mills and in crossing a street one of his hands touched a suspended wire that had been broken from a pole. He was heard to cry out and when others came to the spot where he was lying he was dead. The snow broke down thousands of wires and the telephone, telegraph and car services are badly crippled. Several horses have been shocked by electric wires during the morning and one was killed.

BRIDE OF A DIPLOMAT.

London, Dec. 5.—Baron Herman Speck Von Sternberg, formerly secretary of the German embassy at Washington and recently appointed consul general for Germany at Calcutta, was married quietly this afternoon at St. George's church, Hanover square, to Miss Lillian May Langham, of Louisville, Ky. The mother and two sisters of the bride were present. Mr. Joseph H. Choate, the United States ambassador, supported the bridegroom.

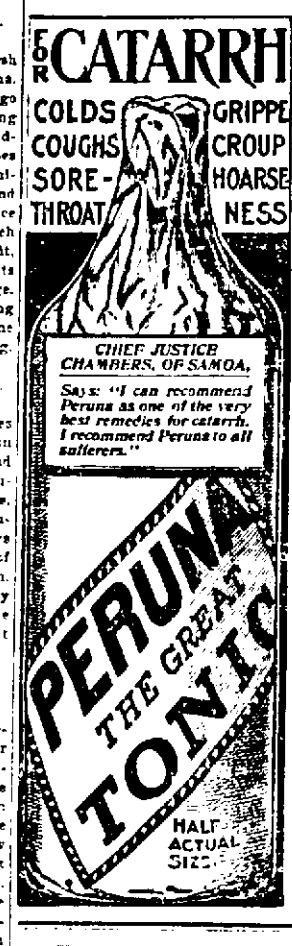
PUBLICITY RIGHTS A WRONG.

Lima, Ohio, Dec. 5.—Publicity was the undoing of William Bigelow, the man who had his sweetheart, Zella Mansham, arrested on a charge of pocket picking because of her refusal to return to him a watch that she had won on an election bet. The story of the young woman's plight was sent to new papers all over the country, and as the result Bigelow has been flooded with letters from persons whose indignation has been expressed in every form from gently sarcastic appeals to his gallantry to screeds that exhausted the vocabulary of abuse. Bigelow took shelter from the storm he had raised, withdrew the charge against Miss Mansham and had the case dismissed.

NATIONAL CELEBRITIES

Declare Peruna to Be The Greatest Catarrh Remedy of The Age.



Hon. M. C. Butler, ex-Governor of South Carolina, in a letter from Washington, D. C., says: "I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, and besides, a great tonic."

U. S. Senator Stephen R. Mallory, Pensacola, Fla., says: "I have used your excellent remedy, Peruna, and can recommend it both as a tonic and a safe catarrh remedy."

Hon. William Youngblood, Auditor for the Interior, writes from Washington, D. C., to Dr. Hartman, Columbus, O., as follows: "I've often heard of your great medicine and have persuaded my wife, who has been much of a sufferer from catarrh, to try Peruna, and after using one bottle she has wonderfully improved. It has proved all you have claimed for it."

Hon. Rufus B. Merchant, Superintendent and Disbursing Officer, U. S. Post-office, Washington, D. C., says: "I take pleasure in commending your tonic, having taken a bottle of Peruna with very beneficial results. It is recommended to me as a very excellent catarrh cure."

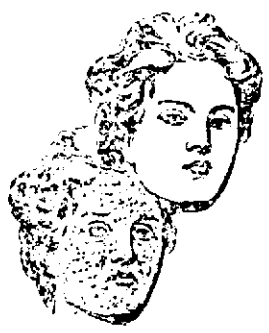
Made Her Beautiful.

Every Lady in the Land Can Now Have a Beautiful Skin.

A TRIAL BOX FREE.

Every lady who sends her name and address will receive by mail free a trial treatment of a celebrated beauty's remedies for beautifying the complexion. It is not a face powder, cream, cosmetic or bleach, contains no oil, grease, paste or chemicals and is absolutely the only successful beauty maker known.

Fannie B. Ralston, 628 Lexington Ave., New York City, sister of the famous Kentucky



FANNIE B. RALSTON.
(Showing Her wonderful improvement.)

Beauty Doctor Ralston, who also used these remedies says:—"When I began using Miss Ralston's complexion beautifiers I did not think it possible to clear my skin, my face was in a horrible condition, literally covered with red spots, pimples, blackheads, moth patches and freckles. And whenever the weather changed eczema, chap and salt rheum added to my misery. I suffered a thousand deaths and when I sent for a trial of Miss Ralston's beautifiers, just as I had done before time and again with other advertised remedies, I did not expect any results, imagine my surprise when the next day all redness and soreness were gone. At the end of a week my skin began to clear, the freckles and moth patches disappeared and the eczema and salt rheum were completely cured. I improved so wonderfully that my friends did not recognize me, so quickly did the change take place. My skin is now perfectly lovely, and there is not a blemish or wrinkle anywhere.

I hope all ladies will at least try these marvelous beautifiers."

Do not delay, but write immediately. The treatment is harmless, a natural beauty maker and will permanently remove all tan, freckles, moth patches, pimples, blackheads, flesh worms, sunburn, chaps, roughness and any and all skin imperfections, no matter what they may be.

Write today without fail and the free treatment will be mailed prepaid with full directions and all particulars absolutely free. Address MME. M. RENAULT, 1267 Elm Block, Cincinnati, Ohio. 30-1-12

OPENED BY THE CARDINAL.

New Orleans, La., Dec. 5.—Dressed in his robes of office Cardinal Gibbons opened today's session of the southern industrial convention. The cardinal, escorted by a delegation of prominent citizens, received a cordial greeting when he entered the hall. In his invocation, for divine guidance of the convention's deliberations, the cardinal expressed the hope that the dawning century will see the fulfillment of Isaiah's prophecy—that swords shall be beaten into plow-shares and sickles. Dr. Lyman Hall, president of the Georgia school of technology, spoke at the morning session on technical education. A paper was presented on foreign and coastwise trade as a necessary factor in southern industrial development by N. E. Kelly, secretary of the Trades' League of Philadelphia.

The election of officers of the ladies of the Caledonian society was postponed from yesterday afternoon to the first Tuesday in January.

WILL BEGIN TASK.

WORK OF RENUMBERING THE STREETS ORDERED.

ENGINEER HAS A SCHEME

GIVING EFFECT TO MODERN SYSTEM.

THE MUNICIPAL AFFAIRS

NEWS GATHERED ABOUT THE CITY BUILDING.

The board of public works has finally decided upon a line of action that will be warmly applauded by a majority of the citizens of Fort Wayne. After mature consideration and a lengthy consultation with City Engineer Randall, it was determined to immediately commence the renumbering of the streets in accordance with the provisions of the Purcell ordinance passed by the city council over two years ago. When a petition was presented to the board a few days since asking that the work be done it was thought that it was entirely impracticable to do anything in the matter at present. The burden of the work devolves upon the city engineer and the sewer complications as at present existing made it almost impossible for him to give it immediate attention. Since then, however, he has looked over the work and found that during the odd times that he has devoted himself to perfecting the system he had accomplished a great deal more than he really knew. The plats and other plans and outlines were collected and the engineer reported that he thought he would be able to complete the system with much less additional labor than he anticipated. Accordingly the board requested him to proceed and the books will be ordered at once and the inauguration of the scheme will commence without delay. The new system is probably familiar to most of the readers of The Sentinel, consisting chiefly in dividing the city into blocks of 100. Calhoun street will be the dividing line east and west and the St. Marys river the line north and south. The entire city will be divided into imaginary lots of twenty or twenty-five feet frontage and these lots will have numbers assigned to them from 1 to 99 on the left hand side and from 2 to 100 on the right hand side of each block, and each block will commence with a progressive initial figure. For instance, on Wayne street the first left hand lot east of Calhoun will be No. 1, the first house east of Clinton on the same side would be No. 101, the first house east of Barr 201, the first east of Lafayette 301, and so on, the corresponding numbers on the other side being 2, 102, 202, 302, etc., and the same system will be followed on the north and south streets. When completed, if one should want to be directed to No. 1219 Calhoun street, it would at once be seen that the house would be located twelve blocks south of the river, on the left hand side and about the middle of the square, as the average would be less than twenty lots to the square. There is, of course, much to be done before the actual work of renumbering can be commenced, but as the matter will be pushed steadily to completion, it is safe to say that the coming summer will see the new system in perfect operation.

THE SOUTHWESTERN.

The committee on streets and franchises met again at the city hall last night to discuss the franchise asked for by the Southwestern railway company, which proposes to build an electric line from this city to Huntington and other points. The session was a protracted one, but at adjournment an agreement had been reached and all differences had been adjusted. The company agreed to a modification of the original terms so as to allow the use of the tracks by the other city and interurban lines, agreed to the regulation of the remuneration for the use of the tracks being fixed by the city, specified the responsibility of other companies and agreed to every proposition submitted by the city. The franchise will now be submitted to the council for amendment as decided by the committee and the franchise will then be granted. The projectors assure the city that the work will be commenced immediately.

ABOUT THE CORRIDORS.

There were two cases before the mayor at police court and both were made the happy recipients of executive clemency. A bibulous teuton who rejoices in the name of Gustave Bismarck promised that hereafter he will eschew the flowing bowl and devote himself exclusive to the patronizing of Swinney park water, so with a doubtful smile the mayor told him to go. John Luders, a lad of about sixteen, who tells a tale of Indian massacres and border adventures that would delight the heart of a dime novelist, was brought in for train climbing, having been arrested by Pennsylvania Officer Bates. He was allowed to go and practice his tories on some one else.

A new case of scarlet fever has been reported at No. 7 Smith street. There are now a total of ten cases of scarlet fever and five of diphtheria in the city.

Olger, the forger, Watson, held for grand larceny, and Morgan, the check artist, were all taken from the county jail to Superintendent Gorslin's office this morning, where their measurements and descriptions were carefully taken and entered on the record.

A nomadic family, consisting of a little old lady, a little younger woman, a voluble little boy and a precocious little girl, were brought to the city hall from the Pittsburg depot this morning. They had been camping at the station all night. They told all sorts of conflicting stories, said they had $3 in money and were en route from Pittsburg to Greensburg, although they admitted having come here from Hillsdale. Questioning brought out the fact that the family, or part of it, had been wandering from one point to another since 1879 and that they are little less than professional beggars. When jail was mentioned by Lieutenant Lapp there was a concerted wail like an organized chorus of a comic opera, and the proposition was immediately withdrawn. Arrangements were made to get them out of town, and they were warned never to land in Fort Wayne again under penalty of imprisonment.

The committee on finance will meet on Friday evening. The principal business will be providing for the police pay roll. The recent increases in the salaries of police officers has created a deficiency in a police appropriation which must be met, lest the officers go hungry during the balance of the year.

The board of works has not yet heard from Contractor Adams, although he is long past due, and should have been heard from some days ago. Chairman Eggeman intimates, although he denies authentic information, that Mr. Adams is arranging for the sub-letting of his contract and believes that the matter will be cleared up in a few days.

Four prisoners at the county jail were photographed by the official city photographer this morning.

The board of safety today purchased of Barney Hazzard a handsome gray team for use in the fire department. The price paid was $325.

REAL ESTATE TRANSFERS.

(Compiled by John C. Heller & Co., Abstracters, 32 East Berry St.)

—City.—

HOLD ANNUAL ELECTIONS

MANY SOCIETIES HOLD ANNUAL ELECTIONS.

Degree of Honor, Ladies of the U. V. L., Masons and Others in the Number.

Allen lodge No. 20, Degree of Honor, auxiliary to the A. O. U. W., held its semi-annual election last evening and officers were chosen as follows: Mrs. Jennie Hall, C. H.; Mrs. Aviel Pappert, L. H.; Mrs. Edith Martin, C. S.; Mrs. James E. Lonergan, recorder; Mrs. Martha Gordon, financier; Mrs. S. D. Meilheimer, receiver; Mrs. Josephine Hamilton, usherer; Mrs. Rosa Hall, inside watch; Mrs. John A. Hamilton, outside watch; Dr. A. P. Buchman, medical examiner.

HOME LODGE, F. & A. M.

At the annual election of Home lodge No. 342, F. & A. M., last evening, the following officers were elected: E. F. Leibman, W. M.; A. R. Walter, S. W.; W. J. Mass, J. W.; F. Hilt, treasurer; O. B. Johnson, secretary; S. Henline, S. D.; H. L. Berringer, J. D.; A. F. Schoch, S. S.; D. C. Liebman, A. R. Walter, W. J. Haas, trustees.

LADIES OF THE U. V. L.

Ladies' auxiliary No. 8, of the Union veteran Legion, has elected new officers as follows: President, Libbie Greenlius; senior vice president, Margaret Kiess; junior vice president, Melissa J. Kitkley; chaplain, Jeannette R. Carpenter, conductor, Jennie Johnson; guard, Elizabeth Herman; color bearer, Anna M. Winans.

SONS OF VETERANS.

Col. E. S. Walker camp No. 159, Sons of Veterans, held its annual election last evening and selected the following officers: Captain, D. E. Bricker, re-elected; first lieutenant, George W. Zollinger; second lieutenant, W. J. Bickford; camp council, W. H. Myers, W. F. Geller, C. F. Zollinger; delegate to state encampment, W. J. Bickford; alternate, George W. Zollinger.

KNIGHTS OF COLUMBUS.

The Knights of Columbus held the annual meeting for the election of officers Monday evening, and the following leaders were chosen:

Grand knight, Frank J. Voirol; deputy grand knight, C. App; chancellor, Maurice Niezer; recording secretary, J. T. Callahan; financial secretary, Joseph J. Lennartz; treasurer, H. C. Kramer; lecturer, Frank Mauucl; advocate, William P. Breen; warden, A. Schoenbein; inside guard, Joseph Dolan; outside guard, John A. Woulfe; trustees, James Finnell, G. B. Grimme, M. J. Maroney, J. B. Monning, J. J. Quillinan; physician, E. J. McOscar; chaplain, Rev. J. P. O'Reilly.

UNION VETERAN LEGION.

Encampment No. 31, Union Veteran Legion, elected officers Monday evening, with the following result:

Colonel, William McClellan; lieutenant colonel, James Liggett; major, William Henderson; officer of the day, C. J. Parr; quartermaster, E. G. Anderson; chaplain, William Donnell; sergeant, L. W. Johnson; trustee for three years' term, H. C. Zollinger. These officers will be installed at the first meeting in January, and the installation ceremonies may be public.

WAYNE LODGE, F. & A. M.

Wayne lodge, F. & A. M., has elected the following official staff for the ensuing year:

Isadore Potthitzer, worshipful master; Edwin D. Jump, senior warden; Eli J. Miller, junior warden; George H. Wilson, treasurer; D. L. Harding, secretary.

MODERN WOODMEN.

Fort Wayne camp, Modern Woodmen of America, has elected officers as follows:

Venerable consul, T. J. Traxler; worthy advisor, E. E. Guffin; excellent banker, C. E. Halsell; clerk, F. H. Cutshall; escort, C. G. Beard; watchman, William F. Eernberger; sentry, George Flaugh; physicians, Drs. E. E. Morgan, Rud Van Swearingen, George B. Siemen and John Michels.

DEGREE OF HONOR ELECTS.

Degree of Honor, No. 2, A. O. U. W., elected the following officers last evening: Past chief of honor, Mrs. Jennie Edrall; chief of honor, Mrs. Philip Varin; lady of honor, Miss Jennie Pelkey; chief of ceremonies, Mrs. Croninger; receiver, Mrs. Shapper; financier, Mrs. Will Beaman; recorder, Emma Conover; usher, Mrs. C. B. Smock; inside guard, Mrs. John Allen; outside guard, Mrs. Williams; medical examiner, Dr. Ruhl.

DISCUSSING REVISION.

Washington, Dec. 5.—The committee of sixteen of the Presbyterian church charged with the consideration of the proposed revision of the creed held its second session at the New York Avenue Presbyterian church this forenoon. The subject was thoroughly discussed, but no decision was reached. At 3 o'clock this afternoon the committee will assemble for further consideration and at 6 p. m. will visit the president. A conclusion probably will be reached at the meeting this evening at 7:30 o'clock.

CRITICIZE THE MESSAGE.

Vienna, Dec. 5.—The papers here generally criticize the United States' policy, as outlined in President McKinley's message to congress, with respect to China. While admitting the great influence Washington has exercised with the European powers, the official Fremdenblatt complains that the United States appears unable to compensate individual foreigners for infringement of their rights, while the Neues Wiener Tagblatt, touching on the same subject, asks if President McKinley showed the same solicitude of the Austro-Hungarians who lost their money, health and lives in the United States, as he now shows with reference to Austro-Hungarians arrested for evading military service.

DAMAGE BY SNOW STORM.

Syracuse, N. Y., Dec. 5. As a result of last nights snow storm the telegraph, telephone, electric light and fire alarm wires are in great confusion. Wires broke under the weight of snow and poles toppled over. More than 500 telephones are out of order today. A number of horses were killed by live wires in the streets and pedestrians had narrow escapes. Danger points were guarded during the night. About three inches of snow fell during the night and there is a slight fall at 10 a. m. today.

NOT TO JOIN CHURCH OF ROME.

London, Dec. 5.—Viscount Halifax, president of the Church Union, who was reported by the Dublin Herald to be about to join the Church of Rome, declares that the allegation is without foundation.

SMALL SCHOONER WRECKED.

Portsmouth, N. H., Dec. 5.—The small schooner Mary A. Brown, of Gloucester, was wrecked on Hampton Beach today and all on board were lost. It is thought the crew numbered at least four men. The body of one man was recovered from the schooner.

EARL OF DONOGHMORE DEAD.

London, Dec. 5.—John Luke Hely-Hutchinson, fifth earl of Donoghmore, at one time assistant commissioner in eastern Roumania, died of paralysis in London this morning.

DISABLED VESSEL IN PORT.

Halifax, N. S., Dec. 5. The Allan line steamer Parisan, from Liverpool November 21, reported last night off the harbor with machinery disabled, steamed up to her pier in a heavy snow storm this morning.

TEDDY WILL A-HUNTING GO.

Chicago, Dec. 5. A special to the Record from Meeker, Col., says: Vice President Roosevelt is coming to Colorado this winter for a hunting trip. He has notified the proprietor of the hotel here to reserve accommodations for Lim and his robes and pyjamas.

party here the week before the New York legislature meets in January. The object is to kill mountain lions.

LIKE CAGE'S REPORT.

Berlin, Dec. 5.—Secretary Gage's report has made an excellent impression in financial circles here. A financier to whom the correspondent of the Associated Press showed the figures exclaimed:

"It is magnificent and confirms the condition of the American money market as indicated by the various loans of Europe during the year."

HONOR CANADIAN TROOPS.

London, Dec. 5.—The visiting members of the royal Canadian regiment, piloted by the duke of Argyl, Joseph Chamberlain, Lord Lonsdale, the duke of Aberdeen, Lord Lansdowne and others, visited the houses of parliament today. Mr. Chamberlain, in the course of an address, acknowledged the indebtedness of Great Britain to the colonial troops. The Canadian contingent was most cordially welcomed in the house of lords by Lord Lansdowne and the duke of Aberdeen in brief speeches. Colonel Otter, in thanking the speakers, denied the allegations of bad treatment of the Canadians. He said the only complaint he and his men had to make was that they were being killed by kindness.

ENTOMBED MINERS RESCUED.

Scranton, Pa., Dec. 5. A serious cave-in occurred this morning in the Nay Aug mine near Dunmore. Fifty-one men were entombed and great excitement prevailed. After three hours' hard work a rescuing party succeeded in digging into the chamber in which the men were imprisoned. All were rescued, not one being seriously injured.

MANLEY WILL ACCEPT.

Washington, Dec. 5.—Hon. Joseph H. Manley, of Maine, who has been offered the position of commissioner of internal revenue, in place of George W. Wilson, deceased, will be in Washington next Saturday, when it is expected he will accept the appointment.

RELIGION IN REICHSTAG.

Berlin, Dec. 5.—In the reichstag today the imperial chancellor, Count Von Buelow, informed the centrists that their bill in regard to the free exercise of religion was not acceptable to the federal governments, who, while respecting the convictions whereon it was based, saw in the proposal an intention to restrict the constitutional independence of the states in matters reserved for their individual legislation. Count Von Buelow said that, speaking from a personal standpoint, he hoped the disparities possibly existing in the laws of the different states would be remedied, but as chancellor, his first duty was not to allow the federal character of the empire and the autonomy of the members of the federation to be prejudiced without the consent of the individual states.

AN AGREEMENT IS REACHED

CHINESE TROUBLE PLACED ON DISTINCT BASIS.

Pekin Ministers Have Arrived at an Agreement Minister Conger Is Ordered to Sign.

Washington, Dec. 5. The state department has been informed that the foreign ministers at Pekin yesterday reached an agreement, which was submitted to the home offices. Secretary Hay today cabled Mr. Conger authorization to sign the agreement on behalf of the United States government. It is difficult to gather details of the understanding at this time.

However, it is known that in the two important issues that were still open, namely, those relating to punishment and indemnity, the view of the United States government has prevailed.

As to punishments they are to be the severest that can be inflicted by the Chinese government. As to indemnity the Chinese government is to formally admit its liability and then the matter is to be left for future negotiation. It was understood that on the other points the French proposition has formed the basis of the agreement.

FIGHTS ARMY BILL

(Continued from First Page.)

[illegible] the failure of the senate to consider it had been entirely due to the pressure of other business.

A number of petitions were presented urging that the treaty should not only be ratified but that the principle involved should be applied to other uncivilized portions of the world.

After the delegations withdrew the committee voted to report a resolution for the ratification of the treaty without amendment.

ARMY BILL PROGRAM.

Washington, Dec. 5.—Chairman Hull, of the house committee on military affairs, said today that the program for considering the army reorganization bill as now outlined contemplated a special rule which would take up the bill today. But as the legislative appropriation bill was ready, the right of way would be conceded to that measure. The army bill will then follow.

Under the proposed special rule no precise time will be fixed for taking the final vote, as this may be reached by arrangement; otherwise the previous question will be resorted to for the purpose of securing a vote before the close of the week, if possible. The committee on rules met at 11 o'clock to frame the special rule.

Mrs. W. L. Pettit, wife of the assistant cashier of the First National bank, left this morning for Tucson, Ari., where she will spend the winter in the hope of benefiting her health. Mrs. Pettit makes the trip via New Orleans and the Rio Grande railroad.

S. W. Stine circle, Ladies of the G. A. R., will hold a special meeting at their hall on Thursday, Dec. 6, at 2:30 p. m. Business of importance.

Women Can Choose Health

No suffering woman could receive more welcome news than this earnest message from Mrs. Eston. It shows YOU the way to health. What greater proof of what Wine of Cardui will do, need be given? Who is to blame if you do not ask your druggist for Wine of Cardui to-day and secure the same glad relief? Will you not choose to be well? Why continue to suffer another day?

Guthrie, Okla. Ter., April 23, 1900.

I feel as if it were my duty to write a few words about my case. I have been afflicted with female trouble for seven years, had falling and inflammation of the ovaries, was past walking for a year and had tried the best doctors only to receive momentary relief. Part of the time I could not bear for my feet to be one inch wider than my body. I had to be packed up and carried like a baby. The doctors could do no more, so they advised me to go home to Texas. I thought the change of climate might do me good. For a few days I was a little better and by my relatives dressing me and setting me in a chair with my feet and head propped up I could get up a little. I soon got worse and had another doctor called in, and took bushels of medicine, but if I ever was benefited I could not detect it by my feelings. I thought I had heart trouble, too. When I would lie still a short time my heart would apparently stop its beating and then they would have to rub me and administer toddy. I was being urged all this time by a relative to try Wine of Cardui, but I had tried so many things I thought all hopes were gone and it was not worth while to try the Wine. I was like many other suffering ladies, who do not have any confidence in patent medicines, but at last, after I had been afflicted so long, I decided to try

WINE OF CARDUI

I hadn't taken all of one bottle when I felt some of my many pains leaving me. I felt so encouraged I had my husband order six bottles and by the time I had taken them I could do all my housework and washing with a little help. I gradually got better and during the past year I have been better than I have been for seven years. I have walked one and a half miles to church, sometimes twice a day, and cooked my dinner. I am still using Wine of Cardui whenever I feel bad. It is the medicine for me. I want all suffering women to use this good medicine.

Mrs. J. E. ESTON.

All druggists sell $1.00 bottles of this great medicine. Take no substitute. It was Wine of Cardui which cured Mrs. Eston.

In cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department", The Chattanooga Medicine Co., Chattanooga, Tenn.

BEST FOR THE BOWELS

If you have been a regular buyer of the Cascarets and have not been benefited, you have been buying counterfeits. Genuine Cascarets are made only by the Sterling Remedy Company, Chicago, Montreal or New York. Do not be deceived by dealers who say they have something "just as good" or "will answer every purpose." They are dishonest.

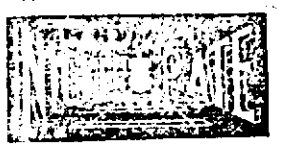
ARRIVE.



E. & W. BY. TIME TABLE—

SOUTH.

NORTH.

O. W. Case, G. P. A.

TO CALL ELECTION

TO CHOOSE SUCCESSOR TO LATE C. L. DRUMMOND.

GOVERNOR WILL ORDER IT AS SOON AS OFFICIALLY NOTIFIED OF DEATH.

ALLEN COUNTY WILL HAVE FULL REPRESENTATION IN INDIANA HOUSE.

(Special to The Sentinel.)

Indianapolis, Ind., Dec. 5.—Governor Mount announces his intention to notify the sheriff of Allen county to proceed with a special election to choose a successor to the Indiana house of representatives to Representative-elect Charles L. Drummond, deceased.

Governor Mount will notify the sheriff as soon as he has been officially apprised of the death of Mr. Drummond.

There had been some talk that unless mandated to do so the proper authorities would not call a special election to choose a successor to Representative-elect Drummond.

It has been pointed out that a special election would entail an expense of about $1,000 on the county. There are two other representatives and two members of the senate to represent Allen county in the legislature and it has been believed by some that the county's interests will be taken care of by them. There is no party advantage to be served by filling the vacancy because the republican majority is so large that one democratic member more or less will make little difference.

However it looks as though Governor Mount views the matter differently, doubtless holding that as the laws provide for three representatives from Allen county the obligation to the law is not fulfilled if there be a less number.

No candidates have as yet even been talked of.

GOVERNOR LIND IN DILEMMA.

St. Paul, Minn., Dec. 5. Governor Lind is still meeting difficulty in finding a republican who will accept the appointment to the United States senate. He was called on by many members of his own party, who are inclined to protest at his decision not to appoint a democrat, claiming that some leader of the party should be given the honor even though the term would expire within six weeks or two months, when the legislature acts. L. L. Brown, of Winona, recently democratic candidate for congress in the First district, is being urged, and Former Congressman C. A. Tawney is not altogether out of the race. Such reports as have secured most reliable today, however, have been to the effect that the governor was anxious to appoint some good republican whose appointment would meet with the indorsement of the republicans in the legislature. These latter, however, are in town in force, and the opinion is generally expressed among them that any republican who accepts an appointment from a democratic governor need not look for favors from them.

One very generally credited report circulated that Former Governor John S. Pillsbury would be willing to accept the appointment, with an expectation of being a candidate before the legislature. Culmination was impossible, however, as it is the case of Mr. Moses E. Clapp had been offered the position. Altogether the situation is unchanged, everything hinging on the success of the governor's overtures to various unknown republicans.

OFFERS LAND TO THE BOERS.

Kenosha, Wis., Dec. 5. Attorney Walter M. Cowell, president of a land company, the headquarters of which are in this city, has written to the American Transvaal Association in New York offering to provide 650,000 acres of land to encourage the Boers of the Orange Free State and Transvaal. This land is situated in the western part of West Virginia and in Arkansas. It is well watered, fertile and possesses excellent railroad communication, several lines running through or near most of the property. Many fruit farms have already been developed in the land belonging to the company in Arkansas.

The plan of colonization is to divide the land into farms, each containing forty acres. Every alternate farm will be allotted to a Boer, the company retaining the right to the other farms, which will be developed for speculation. This land is held by the colonization company under government patents. The offer, Mr. Cowell says is based on business principles and not on sentiment. He is confident that his offer will be considered.

WILL GRANT THE FRANCHISE

SOUTHWESTERN ROAD FAVORED BY COMMISSIONERS.

Will be Given Right of Way With Few Modifications Riedmiller Bridge Must be Strengthened.

The Southwestern Railroad company appeared before the board for a franchise to construct an electric line along the public highways of the county from the western city limits to the Huntington county line, along a line heretofore published in these columns. The application was in the usual form and will be granted by the commissioners with a single proviso. A clause was inserted providing that if the bridge, known as Riedmiller's bridge, is not strong enough to safely carry the company's cars, the company shall strengthen it to the satisfaction of the bridge superintendent, and if at any time the said superintendent shall consider the bridge unsafe, the railway company shall build a new bridge for their own use and without expense to the county. If these conditions are accepted by the company the franchise will be granted. Mr. Ried, of the construction company, informed the commissioners that immediately upon the granting of the franchise, work on the construction of the road would be commenced.

A number of bills were allowed, which concluded the work of the board today.

ASIAN COTTON CROP.

Washington, Dec. 5. The cotton crop of central Asia is expected to be excellent this year, according to Vice Consul Smith at Moscow. This year's crop is expected to aggregate between seven and eight thousand pounds, or enough to meet half of the general demand. The remaining cotton required for manufacturing purposes in Russia will have to be imported.

STOCK DISEASE RAGING.

Washington, Dec. 5. Consul Tourgee, at Bordeaux, has informed the state department of the prevailance of what is known as the "foot and mouth disease" in Charente, and neighboring departments in France. A decree is in force forbidding the introduction of cattle, sheep, hogs and goats from the infected departments into the Gironde. There is no exportation of these animals themselves from Bordeaux to the United States, says the consul, but their hides come to this country in considerable quantities.

The jury in the case of the Keystone Manufacturing company vs. Buteller, after being out over twenty-four hours, last night returned a verdict for the plaintiff in the sum of $150.

THE MARKETS.

Chicago, Dec. 5.—Wheat opened strong today on higher cables, January ⅝c up, at 71⅛@72c. On liberal northwest receipts offering become more liberal and a reaction to 71¼c followed. Local receipts were 43 cars, none of contract grade. Minneapolis and Duluth reported 500 cars, against 420 last week and 329 a year ago.

December shorts in corn were given another turn. Of the receipts, 213 cars, but 1 car was of graded contract. December opened ⅜@½c higher at 37¼c to 37⅝c and sold quickly to 38c. A reaction to 37½c followed. May opened ⅛@¼c up at 36⅜c to 36⅞@36⅞c and eased off to 36½c.

Oats were stagnant. May opened unchanged at 23½c and sold to 24c. Receipts were 111 cars.

Provisions started strong on an advance in prices at the stockyards. January pork opened 5c higher at $12.07½ and sold to $12.15; January lard opened 5c up at $6.85, touched $6.87½, and then reacted to $6.82½@6.85; January ribs started 7½c better at $6.27½ and reacted to $6.25.

THE CLOSE.

Prices at the close were as follows:

Wheat—Dec., 71⅛@71⅛c; Jan., 71⅛@71⅞c; Feb., 72½c; May, 74½@74⅝c.

Corn—Dec., 37½c; Jan., 38c; May, 36½@36¾c.

Oats—Dec., 21½c; Jan., 21¾c; May, 23¾c.

Pork—Dec., $12.25; Jan., $12.22½; May, $12.12½.

Lard—Dec., $7.17½; Jan., $6.90; May, $6.95@6.97½.

Ribs—Dec., $6.30; Jan., $6.27½; May, $6.37½.

Flax—Cash N. W., $1.72; No. 1, $1.70; Dec., $1.67; May, $1.66.

CHICAGO LIVE STOCK.

Chicago, Dec. 5.—Cattle—Receipts, 15,000; market steady to strong. Good to prime steers, $5.25@6.25; poor to medium, $4.00@5.35; stockers and feeders, $2.25@4.25; cows, $2.00@4.15; heifers, $2.65@4.65; canners, $2.00@2.50; bulls, $2.50@4.15; calves, $3.50@5.50; Texas fed steers, $3.35@4.15; Texas bulls, $2.50@3.25.

Hogs—Receipts today, 30,000; tomorrow, 25,000; left over, 2,945. Market 5@10c higher, closing easier; top, $4.95. Mixed and butchers, $4.75@4.95; good to choice heavy, $4.90@4.92½; rough heavy, $4.45@4.85; light, $4.45@4.92½; bulk of sales, $4.75@4.85.

THE DAY ON WALL STREET.

New York, Dec. 5.—London sent lower quotations this morning and a further break in Sugar of over a point combined to depress opening prices here. Norfolk and Western was off a point and Tennessee Coal and Metropolitan Street Railway lost about as much. The Steel stocks were irregular, Steel and Wire being the notably strong point with a rise of nearly a point. Business was quite active and well distributed.

Room traders lent support to the specialties, causing a rise of 1@2½, in the Steel group, Tractions and high-priced industrials. Railroad stocks moved up strongly in spots, notably Norfolk and Western, Baltimore and Ohio, Erie first preferred and Reading first preferred.

A rally of ⅞ in St. Paul was soon lost and the general demand slackened as prices advanced. Sugar got a shade above yesterday's close, which was about the extent of the rise in most of the railroads.

By 11 o'clock the market was on the down grade on sales of the Pacifics and Steel stocks.

Tennessee Coal, Amalgamated Copper, Metropolitan Street Railway, Consolidated Gas, Sugar, Alton and National Salt lost 1@1½, before the selling movement was arrested. Business was unusually large in Texas Pacific, Pacific and Eastern and the Wabash, and they rose steadily. Missouri Pacific was firm but quiet. Purchases in the general list were very light and but little impression was made on prices. The decline was renewed and prices of several stocks were at the lowest at midday.

Bonds were dull and irregular.

NEW YORK PRODUCE.

New York, Dec. 5.—Butter—Receipts, 4,120 pkgs; market firm; creamery, 18@26c; June creamery, 18@23½c; factory, 12@18½c.

Cheese—Receipts, 3,060 pkgs; market firm; large Sept., 11¼c; small Sept., 11¼c; large late made, 10¾@10¾c; small late made, 11c.

Eggs—Receipts, 6,520 pkgs; market strong; western, regular packing, at mark, 22@26½c; western, loss off, 26c.

Sugar—Raw, firm; refined, steady.

Coffee—Market barely steady; No. 7 Rio, 7¼c.

THE MONEY MARKET.

New York, Dec. 5.—Money on call steady at 4½@4½c; prime mercantile paper, 4@4½ per cent; sterling exchange steady with actual business in bankers' bills at $4.85¼@4.85½ for demand and at $4.81½@4.81¾ for 60 days; posted rates, $4.82½ and $4.86½; commercial bills, $4.80¾@4.81¼; silver certificates, 64@65c; bar silver, 64½c; Mexican dollars, 50¾c.

THE BOND MARKET.

New York, Dec. 5.—Government bonds weak:

U. S. 5s coupon	113¼

DEBS WRITES OF CAMPAIGN.

Terre Haute, Ind., Dec. 5.—Eugene V. Debs, candidate for president on the social democratic ticket, has prepared a review of the campaign and the result at the polls for his followers. He says that, according to his advices, the total official vote will be between 100,000 and 150,000, but that "from private advices I am convinced that a large percentage of our vote was counted against us or counted out on technical grounds. We were not represented on election boards," he explains, "and it was an easy matter to discredit our vote. In some of the southern states the social democratic vote was counted in the democratic column and there was no one present to object. If all the votes cast and meant to be cast for our party had been counted in our favor it is safe to assume that the social democratic party would stand credited with 200,000 votes."

The call is out for the national convention of the social democracy, to be held in Chicago January 15, to make changes in the laws of the organization and prepare for a vigorous campaign to begin immediately afterward. The report of the national committee shows total receipts of $3,637 for the campaign fund. The largest single item of expense was $634 for leaflets. Mr. Debs drew $339 for traveling expenses.

RAILWAY MEN MEET.

New York, Dec. 5.—The regular quarterly meeting of the western railroad presidents and traffic managers was held today in this city. There was a fairly large attendance, President Jeffery, of the Denver and Rio Grande road, presided.

IS VISITING SCHOOLS.

Bishop Joseph Alerding, in company with the priests of several of the city Catholic churches, is today paying a visit to the various parochial schools of the city for the purpose of becoming acquainted with the children.

BAPTISTS IN SESSION.

Denver, Col., Dec. 5.—The annual conference of the American Baptist Home Missionary society began today at the First Baptist church in this city and will continue until Thursday night. There are in attendance twenty-six general missionaries from as many states, four district secretaries and three general superintendents. The society has 1,149 missionaries at work and since the war with Spain has opened twelve new missions in the eastern portion of Cuba and Porto Rico, with some 600 members. The jurisdiction of the society extends in the United States from Indiana west, taking in all the states north and south. It is expected that $430,000 will be raised in this territory this year. Over $100,000 will be expended on the negro schools of the south. Much work has been done in Mexico, where thirty missions have been established.

HORSEMAN DIES SUDDENLY.

New York, Dec. 5.—John Drew, of Paterson, N. J., a prominent retired horseman, died here last night of heart failure. He was sixty-seven years old. Mr. Drew came to this city yesterday to appear as a witness before the board of review of the National Trotting association. He was a man of considerable wealth. He retired from active business some years ago owing to heart trouble.

GETS AN OFFICE.

Washington, Dec. 5.—William H. Robertson, of the District of Columbia, was today appointed United States consular agent at Arnprior, Ont. He had been in the consular service since 1885, his last service being at Hamburg, Germany.

Just received two cases of beautiful neckwear. Come where you find the latest.

A GOOD POSITION

FALLS TO THE LOT OF DANIEL CAMPBELL.

SAFETY APPLIANCE EXPERT

WITH JURISDICTION OVER ENTIRE C. & E. SYSTEM.

WRECK AT THE COAL DOCKS

ONE ENGINE "SIDE-WIPES" ANOTHER THIS MORNING.

Hundreds of friends in this city will be pleased to learn of the good fortune which has fallen to the lot of Daniel Campbell, a former citizen of Fort Wayne. Mr. Campbell has received the appointment of safety appliances inspector of the entire Chesapeake and Ohio railway system and will have headquarters in Clifton Forge, Va., where he has been residing ever since his removal from this city, about six months ago. His new position is a very responsible one, whose emoluments include a very comfortable salary. Mr. Campbell came to Fort Wayne in 1859 and immediately took the position of foreman of the Wabash blacksmith shop, a position from which he was compelled to retire on account of failing health about two years ago. He soon regained his health and with returning strength came a desire to again actively engage in some kind of work, hence his acceptance of the position he now occupies.

TWO ENGINES COLLIDE.

There was an accident at the Pittsburg coal docks shortly after 6 o'clock this morning in which one engine was badly broken and another had its tank knocked off its trucks and more or less battered up. Engineer Chester Durnell was coming out on the main track from the docks with engine 269, which had a short time before brought in the limited from the east. At the same moment Engineer C. Sweeny, with switch engine 107, was backing westward, and a collision occurred. The tank of the switch engine struck and upset the tank of No. 269, demolished the left side of the cab and partially stripped the boiler of its trimmings. The engineer and fireman in the cab of 269 managed to get out of harm's way and the damage is confined to the two locomotives mentioned. The wreck crews immediately set to work in clearing the tracks and traffic was not seriously impeded.

TOWNS QUARANTINED.

This morning the trainmen of the Findlay, Fort Wayne and Western road were instructed to run their trains without stops through the towns of Baldwin, Tilman, Townley, Tipton, McGill and Batson. Agent John Ross has also been instructed to stop the sale of tickets reading to those towns. The occasion for severing communication, as it were, with these villages is the presence in them of smallpox, and the railway company and the health officers fear a spread of the disease if travel is uninterrupted.

FIREMAN INJURED.

Eugene ZurMuhlen, who recently went to Garrett, Ind., to take a position on the Baltimore and Ohio road as fireman, had a most unpleasant experience on his first trip over the road. Mr. ZurMuhlen was riding on a freight engine, learning the road, when an accident occurred and the three occupants of the cab had to jump for their lives. Mr. ZurMuhlen was badly shaken up and was obliged to come home to recuperate.

WRECKED ENGINES COME HERE.

Engines 1,117 and 1,393, as sorry a looking pair of locomotives as have been seen hereabouts for some time, arrived here last night and will go into the Wabash shops for repairs. These engines figured in an accident at Windsor, on the Buffalo division of the road, last week. They were so badly broken up that it required two flat cars to carry the severed parts.

LIBERAL HOLIDAY RATES.

Local railway agents anticipate the heaviest holiday travel in the history of their respective lines this season. The companies have decided to make a rate of one and one-third fare for the round trip and extend the time limit several days. Tickets will be on sale December 22 to 25 inclusive and December 31 and January 1, good returning January 2.

TAIL END COLLISION.

A peculiar accident happened on the Nickel Plate at Leipsic, Ohio, yesterday morning. Through freight train No. 40 and local freight train No. 29 backed into each other with terrific force. Both cabooses and two cars were badly broken. The train crews discovered the situation in time to get off the trains, but not soon enough to avert the collision. A heavy fog prevailed at the time of the wreck.

DON'T GET THIN

Get fat; get nice and plump, there is safety in plumpness.

Summer has tried your foodworks; winter is coming to try your breath-mill; fall is the time to brace yourself.

But weather is tricky; look out! Look out for colds especially.

Scott's emulsion of cod-liver oil is the subtlest of helps. It is food; it is one of the easiest foods in the world; it is more than food; it helps you digest your food, and get more nutriment from it.

Don't get thin, there is safety in plumpness. Man woman and child.

We'll send you a little to try, if you Do SCOTT & BOWNE, 409 Pearl street, New York

CAR CLERK RESIGNS.

Fred William Wilson has tendered his resignation as car clerk at the Pennsylvania freight house and will in a few days enter the employ, in a clerical position, of Mossman, Yarnelle & Co. Eugene S. Beugnot has been selected for the position in the freight office to be vacated by Mr. Wilson. Mr. Beugnot has been employed in a clerical way in the office for some time and is familiar with the duties he will be called upon to perform when he assumes his new position.

PAYMASTER RESIGNS.

Notice has been received here of the resignation of Paymaster George T. Hitchcock, of the Wabash, and the appointment to that position of A. M. Harrison. Mr. Hitchcock has filled that position for a great many years and he is known to every employe on the road. Mr. Harrison is also well known to the men, having been assistant paymaster for many years. The reasons for the change are not stated in the bulletin noting the resignation and promotion.

SHOPMAN'S ARM BROKEN.

Gus Meyer, a helper in the carpenter department of the Fort Wayne Electric works, fell on the Wabash railway crossing last night, while en route home, and fractured his right arm. His comrades at the works did not know of the accident until this morning, when a messenger arrived there to report the cause of absence from duty.

INDUSTRIAL NOTES.

S. P. Marks, of the Pittsburg round house, is sick and off duty.

E. F. Tagtmeyer, foreman of the Pittsburg car machine shop, is sick and off duty.

The Pennsylvania is storing several hundred carloads of coal at the docks at Gay street.

Fireman P. J. Harber, of the Pittsburg, is off duty on account of private business.

Nickel Plate Fireman L. H. Eider, who was sick over a week, reported for duty yesterday.

R. J. Fisher left last night for Cincinnati and Columbus in the interest of the Bass works.

Rumor has it that the Pennsylvania has secured control of the Western Maryland road.

Tomorrow the tests of the Norfolk and Western engine will begin. She will haul trains 6 and 9.

Walter Stanley and F. E. Todd were hunting near Hoagland yesterday. They bagged thirty quails.

After a week's illness Engineer George Quidors reported for work on the Nickel Plate yesterday.

Engine 168 has gone to Stony Island for general repairs. She belongs to the eastern division of the Nickel Plate.

George E. Potter, civil engineer on the Nickel Plate, has returned from an eastern trip in the interest of the company.

John DeLarber resumed his duties in the Pittsburg round house this morning. He had an eye injured a week ago.

Nickel Plate train No. 3, westbound, was one hour and thirty minutes late last night. Storms east caused the delay.

Engineer William Gates has gone to Gallion, Ohio, to see his grandson and endeavor to engage the young man to "fire" for him.

The Electric company is putting in an eighty-light arc plant at Angola, Ind., and the machinery and construction material were shipped there this morning.

Two more car loads of machinery from the Siemens-Halske works arrived at the electric works last night.

George O'Connors is a new employe in the boiler department of the Kerr Murrany works. He commenced work there on Monday.

Brakeman D. H. Haas, who had a shoulder injured last summer, has recovered sufficiently to resume his work on the Pittsburg road.

W. W. Hill, weighmaster at the Nickel Plate yards, is preparing for a trip to Ohio, where he will attend a reunion of his old regiment.

While visiting relatives at Valparaiso last week, Pittsburg Engineer W. F. Jungle was taken sick and has been unable to work since.

Barney Johnson resumed his place in the Bass blacksmith shop this morning. He had been off duty on account of the death of his brother.

W. P. Morris has returned from Columbus, Ohio, where he attended the funeral of his brother-in-law, Mr. Morris is a Nickel Plate brakeman.

Brakeman A. M. Stiles, of the Pittsburg, is off duty, nursing a badly sprained ankle, the result of an accident while out on the road yesterday.

H. G. Granger, chief clerk for Master Mechanic G. S. McKee, of the Wabash, went to Springfield, Ill., this morning on business for the company.

William F. Rahe is again in charge at the storeroom at the Kerr Murray works. He was sick about four months, but has regained complete health.

Ezra Reist and William Morris, recently from Canada, have resigned their positions in the Wabash shops for the purpose of returning to their former home.

The Big Four is reinstating some of the conductors it dismissed a few weeks ago, among the number being J. E. Minor, who has been on that road many years.

Bert Olds left last night over the Wabash for Gibson, Ill., where he will set in operation a lighting plant which has just been installed by the Fort Wayne Electric company.

With the retirement of General Superintendent Kimberly, of the Northern Pacific, owing to ill health, Assistant General Superintendent Law has been selected as his successor.

Machinist James M. Allen, who was injured in the Wabash shops ten days ago, has returned from the company's hospital at Peru and will resume work in the shops tomorrow.

A. Campbell Shaw, of the general office of the Canadian Pacific at Montreal, has been appointed assistant general passenger agent of the road with headquarters at Chicago, vice J. Francis Lee, resigned.

Heavy business has necessitated an increase in some of the switch crews in the Pittsburg yards. William Berry was added to the crew of the warehouse engine this morning, making four men instead of three.

F. C. Welsh, fireman on the Pittsburg road, will represent the Fort Wayne branch of the Y. M. C. A. at the state meeting of the association. No better choice could have been made.

J. Francis Lee, who, on November 1, retired as assistant general agent of the Canadian Pacific to accept the position of traffic manager of the Yukon and White Pass railroad, will receive a salary of $7,500 per annum.

C. W. Smitley and T. H. Gallivan, the Nickel Plate brakemen who had been sick several months with typhoid fever, resumed work yesterday. Mr. Gallavan reported for work over a week ago, but was then too weak to continue at it.

On account of the smallpox scare at Monroeville, the Pennsylvania company will not run an excursion to that city this evening, as announced last Monday. This will be a disappointment to a large number of our people, who had the journey in contemplation.

New names on the Pennsylvania trainmen's absentee list are Conductor George Arnold and Brakemen J. Johnson and F. A. Miller, who are looking after personal matters. Conductors L. Savio and O. L. Shober and Brakemen William Auer and E. Arnold, who had been off duty, reported for work yesterday.

C. E. Gibbs has resigned as general freight agent of the Omaha, Kansas City and Eastern, and E. H. Shauffer, assistant general manager, has been appointed freight traffic manager. With this change the headquarters of the freight department are removed from Quincy, Ill., to Kansas City.

The gross earnings of forty-eight roads for the third week in November were $8,074,691, against $7,990,103 for the third week in November, 1899, an increase of $84,498. Twenty-four roads show increases and twenty-four decreases. Since January 1 the roads referred to have earned $338,709,418, an increase of $30,756,401 over the period of 1899. For the longer period forty-four show increases and four decreases.

Leo Ebner, 6-year-old son of Wreck Foreman George Ebner, of the Pittsburg, was severely injured by his brother yesterday. The lads were playing, when Leo was struck in the eye by a stick in the hands of the other boy. It is believed that the sight will not be injured permanently.

The Northern Pacific has taken quite a radical step, proposing to do away with telegraph lines in dispatching trains. The management has been watching experiments with the long distance telephone and has decided to fit the line with a telephone system. A complete telephone system will be established, covering every essential point on the entire line. It is said that the new system will save an immense amount of time and money.

Indianapolis Journal: "If reports are true, there are three companies that desire to secure the Eel River road, which is thrown on to the market through the result of the appeal to the Indiana supreme court as regards the lease of the property to the Wabash. Richard Roddell, who has judicial decree to dispose of the property, states that it is his intention to proceed with the sale. Whether he will dispose of it subject to an appeal to the United States supreme court, or whether such appeal will delay the consummation of his purpose, is not stated. The best legal authorities have from the beginning held to the belief that the Wabash cannot win the case, and its only object in appealing to the United States supreme court would be to gain further delay pending the building of the Fort Wayne and Butler road, which the Wabash will either lease or operate when constructed.

CZAR'S COURSE FAVORABLE.

Livadia, Dec. 5—The following bulletin regarding the condition of Emperor Nicholas was issued today:

"The czar has passed the last twenty-four hours very well. His convalescence is following generally a favorable course. Last evening his temperature was 98.3 and his pulse 78. This morning the former was 97.4 and the latter 68."

BIG FIRE IN BOSTON.

Boston, Mass., Dec. 5.—Fire in the upper state rooms of Haywood Brothers and Wakefield Rattan company, early today caused a loss of $150,000, of which $75,000 was to the stock and building of Heywood Brothers and Wakefield company and the rest to tenants of buildings adjoining.

POWER HOUSE BURNED.

New York, Dec. 5.—What is known as the Ridgewood power house, owned by the Brooklyn Rapid Transit company, burned last night. Loss, $150,000.

MUSCLE AND NOT FAT.

What Thin People Need to Round Off the Corners.

What thin folks need is flesh or muscle, not fat.

To be symmetrical and properly proportioned every person should have a certain amount of excess flesh, but to be plump does not necessarily mean to be fat.

Fat is undesirable; it clogs and retards the action of the muscles, interferes with the healthy action of the heart and lungs and when very excessive, predisposes to fatty degeneration of vital organs, to say nothing of the discomfort resulting from too much adipose tissue.

Common sense would suggest that if one wishes to become fleshy and plump the thing most needed would be flesh forming food—that is albuminous foods like eggs, beef, oatmeal, etc.

The kinds of food which make flesh are the foods we have on our tables every day; but the trouble is that our stomachs, from weakness or derangement of some kind, do not promptly and properly digest it.

Really, the principal reason so many people remain thin is because their stomachs do not properly and completely digest and assimilate the flesh forming beefsteak and eggs we eat every day.

There are thousands of such people, and they are really dyspeptics, although they may not suffer any particular pain or inconvenience from their stomachs.

If such persons and all thin people would take after their meals some simple and natural digestive, like Stuart's Dyspepsia Tablets, the food would be quickly digested and the proper degree of plumpness very soon result because these tablets are prepared exactly for that purpose. They digest every variety of flesh-forming food, which is the real reason why they so quickly build up and strengthen thin, dyspeptic men and women.

Stuart's Dyspepsia Tablets cure every form of indigestion on this common sense plan, that they thoroughly digest the food promptly, giving strength to every nerve and organ in the body, and the weakened stomach a chance to rest and recover its natural vigor. Nothing further is required to cure any stomach trouble, except cancer of the stomach. They make thin, dyspeptic people strong, plumb and well.

This excellent preparation is sold 50 cents for full sized treatment by all druggists in the United States, Canada and Great Britain.

NOT VERY BRIGHT

UNION DEPOT PROSPECTS GO GLIMMERING.

RAILROADS ARE AGAINST IT

COMMERCIAL CLUB COMMITTEE MAKES ITS REPORT.

COMPANIES STATE POSITION

TWO HAVE IMPROVEMENTS IN PROSPECT.

Better depot facilities had the right-of-way at the meeting of the directors of the Fort Wayne Commercial club last evening, and the reports of the committee on railroads and transportation set forth pretty conclusively what Fort Wayne may expect in that connection.

For nearly a year the club, through its committees, has been urging the necessity of a union depot, or, at least, depot facilities in Fort Wayne that shallbe commensurate with the importance of the city and that shall provide for the comfort of the thousands of people who arrive and depart from Fort Wayne every day. The result of the negotiations with the Wabash and Pennsylvania companies was transmitted to the directors last evening.

PENNSYLVANIA HAS PLANS.

It is learned that while the Pennsylvania company does not believe a union station practicable, the company has a project under way to vastly improve its facilities. Plans have been already prepared and estimates secured looking toward remodeling and enlarging their present station, giving it some architectural grandeur and covering the passenger tracks with suitable sheds. If this is done it is probable the company will ask for some additional concession for the construction of another track along Chicago street, in which case a wall of masonry would probably have to be constructed there.

The Wabash company is against the union depot proposition unless all the roads in the city can arrange to share it. The Wabash say, however, that if the Butler connecting line is built it will make Fort Wayne one of the leading division points on the whole system, and that in that event they will erect a new depot upon the site of the present structure. The original instructions to the committee directed them to proceed to have an architect prepare suggestive plans of a union depot structure that would be acceptable to Fort Wayne, but in the light of the attitude of the railroad companies as reported, the committee has not felt justified in incurring the expenditure necessary to secure a complete set of drawings. This whole matter was referred to the next regular meeting of the club, to be held December 13.

Arrangement has been made with the Pennsylvania company to have train No. 8 made a flag stop at Maples, in order that passengers to this city may have an opportunity of returning home at a seasonable hour. The reports upon the excursions projected for December 18th were unfavorable and that project was abandoned.

WIRELESS TELEGRAPH TEST

WILL WORK CURRENT FROM ENGLAND TO BELGIUM.

Telegraphic Communication Will Be Maintained Between a Ship and the Shore.

Washington, Dec. 5.—Consul Roosevelt, at Brussels, reports to the state department that a station has been established at La Panne, Belgium, for the exchange of wireless telegraphic messages between Belgium and England. La Panne was selected on account of its being the point of Belgium littoral nearest the English coast and a mast of the Marconi system 130 feet high was erected there.

The Dover-Ostend mail boat Princess Clementine was fitted up with temporary apparatus for use in experimental trials. An additional mast was affixed to the foremast of this vessel increasing its original height about sixty feet. From the extremity the telegraphic waves are projected towards each coast.

A special room has been fitted up on the steamer for the instruments, and from that room the cable is carried to the top of the extended mast. It is confidently expected to maintain communication between ship and shore for at least thirty miles, which is about half way across.

With stations at La Panne and Dover those on board the vessel will be able to keep in touch with the land during the entire trip across.

Recent experiments showed that replies arrived with the same regularity and celerity as ordinary telegrams.

When about forty miles from Ostende the captain was able to telegraph the station master at Ostende the probable hour of his arrival.

Various telegrams were sent from the vessel to Ostende, Brussels, Dover and London, and the recipient of each message was acknowledged promptly. Subsequently, the consul adds, a message was sent from the vessel to the station at Dover Court, Essex, a distance of nearly ninety miles, including many miles of cliffs and sea.

NEGRO DISFRANCHISEMENT.

Richmond, Va., Dec. 5.—Much interest is shown in the negro disfranchisement question in this state which is to come before the constitutional convention. United States Senator John W. Daniel is drafting a provision, which it is believed will stand the test in the court of last resort better than the "Grandfather" clause of Louisiana and North Carolina. Senator Daniel's proposition is to exempt from the illiteracy clause all persons from Virginia who served in any war.

Mothers, be sure and use "Mrs. Winslow's Soothing Syrup" for your children while cutting teeth. It is the best remedy of all. may5eod4w

Call for the Eclipse 5c cigar and you will be getting the greatest possible value for the money.

Mrs. Peter Carter, of East DeWald street, is quite ill.

Pleasure Versus Pain.

It is said that "no one knows pleasure until he has known pain." If this is so, what pleasure there must be in store for the Rheumatics! It is absolutely impossible, however, for them to know pleasure until they get rid of their Rheumatism. The surest way for them to do this is to use Ath-lo-pho-ros. It has given pleasure to countless people by curing their Rheumatism. It will give pleasure to everyone that uses it. One bottle of Ath-lo-pho-ros will give immediate relief. A few bottles will cure. It is folly not to try it. After the first bottle you will know pleasures you have known pain.

WABASH MEXICO TOUR

SECOND ANNUAL PILGRIMAGE.

1901.

Under the Personal Direction of Mr. R. G. Thompson.

The Hon. James A. Gary of Baltimore, Md., Ex Postmaster General of the United States, in the Mexican Herald, City of Mexico, said in an interview:

"My trip to Mexico with the Wabash Mexico Tour has been an exceedingly pleasant one. I have not until now been familiar with favorable train time in this country but I know of no more delightful way to visit a foreign country than with a party managed in so capable and attentive a manner as Mr. Thompson. It would be impossible for him to do more than he has done that would contribute to the pleasure and enjoyment of his guests."

The next grand thirty days outing to Old Mexico, covering over 7,000 miles of travel in a special train of six Pullman cars including dining car, serving all meals en route, will leave on February 27th, 1901.

Cost of this tour covering every legitimate expense, such as railroad fare going and returning, one-half section in sleeping car, all meals in the dining car, hotels, side trips, services of guides, interpreters, conductors, etc., will be $100 from Fort Wayne.

MEMBERSHIP STRICTLY LIMITED TO SIXTY (60) PERSONS.

An Elegant 68 page Art Souvenir Itinerary is now ready. If interested in the Tour apply to

LOCAL NEWS.

C. W. Getz has returned from Salem, Ohio.

Mrs. A. L. Griebel is visiting friends in Toledo.

Hon. S. S. Shutt, of Spencerville, was in the city Tuesday.

Judge Hiram C. Biggs, of Warsaw, was in the city Tuesday.

Mr. and Mrs. H. G. Keegan left today for a trip to New York.

Mrs. Alex White and Miss Hattie Fowler are visiting in Chicago.

Mrs. H. C. Paul and daughter, Clara, have returned from Chicago.

Mrs. Van De Grift, of Toledo, is the guest of her sister, Mrs. James White.

The ladies of the Standard club will give a whist company Thursday evening.

The Misses Ray and Hanna Meyer, of Lafayette, are visiting Mrs. I. Pettitjohn.

Mrs. J. A. Stutz will entertain the members of the Laetitia club on Friday afternoon.

Acting Coroner C. E. Barnett has returned a verdict in the case of August Johnson, finding death to have resulted from heart disease.

The Hebrew Ladies' Sewing society will meet tomorrow afternoon in Standard hall. The hostesses will be Mrs. A. Heilbroner, Mrs. Ida Rothschild and Mrs. Isadore Lehman.

Mrs. William Bradtmiller, of Division street, is critically ill and her condition is the cause of great anxiety to her friends. Mrs. Bradtmiller is an old resident of Wayne township.

Mr. Willmeyer, the Knitting Mills employe who was painfully injured a short time ago, and whose arm was amputated at St. Joseph hospital by Dr. W. H. Myers, is progressing nicely toward recovery.

The regular meeting of the Universal Brotherhood and Theosophical society will be held this evening in Vodevertsik hall. The subject of "Desires and Passions" will be discussed by several of the members.

The following Columbia City people were visitors in the city on Tuesday: Rev. Father Boccard, Lee Dare, R. J. Howard, Mrs. Martha Burwell, Mr. and Mrs. F. M. Williamson, Birgie Evanson and Mrs. Ciel Smith.

Mrs. A. Ames, of Parkersburg, W. Va., underwent a very serious operation for the removal of a tumor a few days ago, the attending physicians being Dr. W. H. Myers, assisted by Dr. H. V. Sweringen. Mrs. Ames is doing very well with excellent chances of recovery.

The reception given last evening by Mrs. Ormsby's Tuesday evening class at Kimball hall was an event of much pleasure. The Misses Schneider contributed some fine vocal numbers, which were followed by readings by several of the class members. Refreshments were served.

Evangelist Groom, of Wabash, commenced a series of meetings at the West Creighton Avenue Church of Christ last evening. The attendance was large, filling the church, notwithstanding the inclement weather and much interest and enthusiasm was manifested. Rev. Groom is an entertaining and forceful talker and created a most favorable impression. The meeting will be continued every evening this week.

Miss Florence Shilling, who has been the guest of August Fox and family, returned to her home in Lafayette today.

Philip Koehlinger, who has been employed at Meyer Bros.' drug store, has resigned his position there, and next week will take a situation with H. Rastetter, of East Washington street.

Rev. H. Merz, of Philadelphia, father of Dr. Merz, of this city, arrived here this afternoon and will make Fort Wayne his future home. Rev. Merz has retired from the ministry.

Evangelistic services will commence this evening at Bethany Presbyterian church and will continue until Friday evening. They will be conducted by Rev. J. C. Breckenridge.

Detective Streifling has been notified that his bond for appearance in the Defiance, Ohio, county court to answer to the charge of perjury has been forfeited. Mr. Streifling is not much worried about the matter and says it is all a part of the long string of machinations which have been practiced in that county to down him and shield guilty ones whose indictment for participation in a murder he secured. He says that he had arranged through the mayor and city comptroller to have Charles McCulloch become his surety. Mr. McCulloch telegraphed he would the Defiance bank to give bond for Streifling and he would indemnify them. They answered that they could not do that without security, enemies, and then the bond was declared forfeited. Streifling says the whole matter will be adjusted again in a day or two, and meantime he is not worrying about the forfeiture.

IN THE COURT HOUSE.

The firm name of Mason Long & Co. has been changed to the Mason Long Commission company.

New suits have been filed in the clerk's office as follows: William Ryan vs. Phoenix Accident association, appeal from Justice Taney; Jacob Keller, guardian for Elizabeth B. Putt, vs. Eva Kellel et al., to cancel deed and quiet title; Frank Degets vs. Elizabeth Leutweyler et al., foreclosure, demand $1,700; Samuel Haffner vs. Moses Haffner, on account, demand $100. All in the superior court.

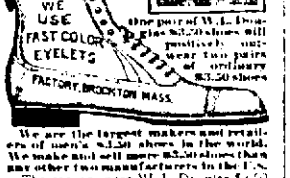
John Dreibelbiss has filed his current report as guardian for Charles Rastetter.

The case of the state against Cleveland Strong, of St. Joe township, for assault on Edith Strong, his daughter, has been continued before Huser until tomorrow morning at 10 o'clock.

Henry Sherry, of Preble, Adams county, was in the city today and identified the horse recovered yesterday by Sheriff Stout as his property.

W. L. DOUGLAS $3.50 SHOE UNION MADE

If you have been paying $5.00 for shoes, a trial of W. L. Douglas $3.50 shoes will convince you that they are just as good in every way and cost $1.50 less. Why pay more when you can get the same value for less money?



One pair of W. L. Douglas $3.50 shoes will positively outwear two pairs of ordinary $5.00 shoes.

We are the largest makers and retailers of men's $3.50 shoes in the world. We make and sell more $3.50 shoes than any other two manufacturers in the U.S.

The reason more W. L. Douglas $3.50 shoes are sold than any other make is because they are the best that can be made. They fit like custom made shoes. The style is the best and always up to date.

BEST $3.50 SHOE

Worn without fault from the very topmost round of fashion's ladder to the lowest round of the ladder. The extra middleman's profits that others have to charge we add to the quality, and figure to the wearer. (W. L. Douglas $3.50 shoes)

BEST $3.50 SHOE

The reputation of W. L. Douglas $3.50 shoes for style, comfort, and wear is known everywhere throughout the world. They have to give better satisfaction than other makes, because the standard has always been placed so high that the wearers expect more for their money than they can get elsewhere.

FORT WAYNE STORE:
80-82 CALHOUN STREET.

DEATHS AND FUNERALS.

GORE.

Mrs. Lucia Gore, of Montpelier, died this morning at St. Joseph hospital from cancer, after a prolonged illness. Deceased is thirty-nine years of age and leaves a husband, E. L. Gore, and two children.

The remains will be placed in the vault at Lindenwood cemetery to await further arrangements.

FUNERAL ANNOUNCEMENTS.

Scheffer.—Funeral services of John Scheffer will be held Thursday morning at 8:30 from the residence, 262 East Wayne street, and at 9 o'clock from St. Mary's Catholic church.

Hahnel.—Funeral services of Anthony F. Hahnel will be held from the residence on Elm street Thursday afternoon at 2 o'clock.

CRAMER-DAVIS.

Miss Sarah E. Davis and Horace G. Cramer were united in marriage at their new home, 59 Archer avenue, by Rev. J. C. Breckenridge, of Bethany Presbyterian church, at 1 o'clock Tuesday. Mr. and Mrs. J. E. Cramer, who were married but a month previously, were the attendants.

A BOXING CONTEST.

If It's a Good Thing SLAVEY'S have it.

A WARM SUGGESTION

A small heating stove that can be fired with a little wood now and then is lots better than keeping a furnace fired up during these days when it is chilly, but not really cold. It will save a great deal in fuel, be easier to regulate and can be readily taken down and stored when not wanted. A furnace isn't a complete heating outfit. Our Columbian Air Tight is just the stove you want to do this work satisfactorily, and the price is only $2.25. That is certainly a good investment. An ounce of reality is worth a pound of romance, and the reality of our advertised values is usually recognized.
